RX-410 Pre- Course Work

Please answer the following questions and submit per your coordinators instructions.

Name:

Agency:

Date:

1. Does your state have a Smoke Management Program? If so, please describe the program and how your unit compiles with its provision (e.g., reporting, monitoring, modeling, quantifying of emissions, etc.)

2. Describe the open burning regulations in your state(s) that apply to prescribed fire. If practical, obtain a copy of the regulations.

3. Identify and list any non-attainment areas for PM 10 or PM 2.5 in your state(s).

4. Identify and list any Class I areas in your state(s).

5. Obtain and briefly summarize your organizations policy requirements (e.g. manuals, handbooks) for smoke management.

6. Describe a challenge or issue concerning smoke management that your fire program is currently facing.

7. Be ready to discuss the smoke management challenges from a specific burn project that you are trying to implement.
