MULTI-AGENCY TRAINING SCHEDULE

Information about wildland fire course presentations can be obtained from local training officers and the Multi-Agency Training Schedule. The following information outlines the procedures to submit or access information contained in the Multi-Agency Training Schedule. The Multi-Agency Training Schedule is not available for ordering from the Great Basin Cache.

The Multi-Agency Training Schedule is accessible via many computer networks used by the Federal agencies. The USDA Forest Service and some State agencies use the Data General (DG); the National Park Service, the Bureau of Indian Affairs and the Fish and Wildlife Service use the VAX; and the Bureau of Land Management uses IAMS. It is also available to all users via the Internet, as indicated on various federal agency home pages and the NWCG Training Working Team home page. An example for the U.S. Department of the Interior's Shared Applications Computer System:

1. Utilizing a World Wide Web (www) browser:
 SACS home page = <http://www.oas.gov/sacsweb/html/firemgt.html>

2. utilizing "ftp" (file transfer protocol) or
 IP address = 205.173.2.2
 File directory = /pub/sacs/train (must be lower case)
 File name = firetrain.txt (must be lower case, ascii text file) or,
 File name = firetrain.zip (must be lower case; use PKUNZIP to extract file)

To submit information to the Multi-Agency Training Schedule, the information should be sent via mail or FAX to: National Interagency Fire Center, Multi-agency Training Schedule Coordinator (NPS), 3833 S. Development Avenue, Boise, ID 83705-0126. FAX: 208-387-5250

The form "Course Presentation Information for Multi-Agency Training Schedule", (PMS 921-5), may be used to submit the necessary information or any other written method may be used as long as the information regarding planned course presentations includes the following data: ●course number and name, ●nomination deadline, ●course beginning date, ●course ending date, ●course location, ●name and phone number of course coordinator, ●special requirements, restrictions or comments.

GEOGRAPHICAL AREA WILDLAND FIRE TRAINING CENTERS and TRAINING SPECIALISTS

Geographical area training centers and the training specialists are an excellent source of information regarding course presentations and information about course contents. Many of the centers have geographic area course presentations available electronically. You are encouraged to check within your own agency/office for the appropriate training specialist first. Course presentations are available locally on an interagency basis throughout the nation..
