2009 NWCG NFES Catalog Part 2: Publications Update

The 2009 NWCG NFES Catalog Part 2: Publications is posted at <http://www.nwcg.gov>

The following information is provided by the Great Basin Cache, National Interagency Fire Center, and "updates" information published in the **2009 NWCG NFES Catalog Part 2: Publications**. Questions regarding this update may be directed to Cindy Wolf 208-387-5119 or cindy_wolf@nifc.blm.gov

Subject: Great Basin Cache (GBK) Inventory, Transition to ICBS-r and Subsequent Ordering Cut-Off Date

The annual cache inventory will be delayed this year due to seismic compliance remodeling of GBK's Main Warehouse, which is expected to take up to 120 days once construction begins, and GBK's transition to ICBS-r, which will occur once the remodel is completed. The annual cache inventory, which normally takes place during the first three weeks of January, will coincide with the transition to the new cache business system as an implementation requirement. Because of GBK's size and complexity of operations, the changeover to the new system is projected to add 2 - 4 weeks wherein the cache will be unable to process other than emergency incident orders. Therefore, orders for items from GBK that need to be filled prior to the end of April, 2010 should be sent to the cache Supply Office by close of business on the ordering cut-off date of **March 1, 2010**. Orders received by this date will allow enough time to ensure processing and shipping prior to the annual cache inventory and move to ICBS-r.

Please note this date on your calendars and spread the word to your training officers, course coordinators and cooperators. We realize this has a large impact on the training community and want to spread the word now so you can preplan your course supply orders. We hope to resume regular processing no later than the end of April, 2010. Since some of you may have to order materials well in advance of the actual need, GBK will extend their unused publications return policy from 30 to 75 days for orders received by March 1, 2010 to help alleviate the burden of precise planning.

If you have questions, feel free to direct them to me at 208-387-5124 or nicole_hallisey@nifc.blm.gov
Thank you for your patience. Nicole Hallisey, Assistant Manager, Great Basin Cache

► The following items should be available March 1, 2010. Please order no later than March 1 (the cut-off date). Orders for these items will be processed March 1. To facilitate last-minute processing, please submit orders for either of the following two items as the only item on the order. Orders received after March 1 will be processed after May 3.
