

S-260 Delivery Guidance

Since the NWCG memo dated April 21, 2017 outlining delivery methods for S-260 was released, further discussion between the NWCG Incident Business Committee and NWCG Training Development Program has occurred and highlighted the need for additional clarification on delivery options.

The options for delivering the course are:

- Online delivery at <https://onlinetraining.nwcg.gov/node/170>
 - The final exam is included in the online course
- Instructor-led delivery using geographic area developed curriculum. This curriculum must meet the learning objectives and use the final exam questions of the online course. Learning objectives can be found at: <https://www.nwcg.gov/committees/incident-business-committee/resources>
 - The final exam can be obtained by emailing a request to:
blm_fa_nwcg_training@blm.gov
- Instructor-facilitated using the online course. Students would need follow the instructions on the website listed above and an instructor would facilitate each module of the online curriculum.
 - The final exam is included in the online course
