<ul style="list-style-type: none">Type 3 Team potential – speed to competency pathwaysC&G training issuesBarriers to resource sharingInclusion of non-fire agenciesShallow poolData collectionOther	
Summer Meeting Schedule	All
Wrap-Up	Dan Smith

Notes:

- Discussion of prior work revealed Dan Smith and Paul Schlobohm have most of the corporate knowledge for the group. Other individuals who have history include: Kim Christensen, Evans Kuo .
- Focus initial efforts on gathering accurate and legitimate workforce information, as described in the following bullet from the charter: *Develop incident workforce data into useful decision support information.*
- Pursue data collection. What data exist describing engagement, availability, and speed to competency? Figure out what is needed to gain a big picture (state, federal). NICC has been compiling assignment data; Jeremy will look into it and report back.
 - Identify areas of focus based on data collected.
- Establish monthly schedule by creating a doodle poll.
- The IWDG charter was updated to reflect NASF and GATR membership.
