Topic	Presenter
Welcome, Agenda Review	Bender
Review Current Actions:	
Data Collection	Bender
<ul style="list-style-type: none"> Reviewed example visual graphs for data on Speed to Competency, IMT Composition, and IMT Assignments. Discussed observations, relative value, and utilization of data as well as gaps in data collection and potential solutions. Intangible elements remain a component that can’t be quantified but does have large impacts. Review Agency Administrator white paper for most appropriate data to include and how best to display it. Bender will resend for review. Recommend reaching to out Portland NIMO regarding potential IC survey and opportunity in to include team composition or history questions. 	
NWCG Tasking Memo 20-001, RPL Standard	
<ul style="list-style-type: none"> No update. Progress on task team development continues. 	
Memo 20-01 to ICAC	
<ul style="list-style-type: none"> No update. Tasking from NMAC to ICAC still pending. 	O’Brien
Memo 20-02 to CGAC	
<ul style="list-style-type: none"> Asked again for members to review memo and for CGAC to take action. Next call is June 24. 	
Position Typing Discussion	Bender
<ul style="list-style-type: none"> IPSC reviewing Request for Change to add additional PIO complexity levels. Will not be approved prior to 2020 PMS 310-1 revision. Discussed consistency across Command and General Staff position typing as part of efficient transition to Complex Incident Management. 	
COVID-19 Discussion	All
<ul style="list-style-type: none"> Portland NIMO is hosting Incident Management Remote Response (IMRR) calls with all functional areas. Lessons Learned Center has an IMRR section for lessons learned.
