Review Current Actions:

Data Collection

- CGAC Data Call
 - Add to request the question of how many individuals are filling slots on multiple IMTs, including for other GAs
- IMT Mobilization Data Analysis
 - Need to further identify as a group which data is being evaluated from the set.
 - Discussion on how to quantify how teams are being used as well as when and how much.
 - Evaluate ability to determine through IROC which roster positions are being filled on mob vs through roster and number of IMT members not available for assignment.
 - Request through ICAC data on IMTs mobilizing without C&G positions filled.

Surge Capacity

- Task Team Update: McDonald, Celino, Prevette, Harvey, Gadd
 - Will meet to discuss the topic and establish a lead from the group to provide future updates.

Complex Incident Management Implementation

- Draft Tasking Memos: Status
 - FMB, NWCG, and NMAC all meet this week and have memos or tasking memos as agenda items. Decisions are needed to continue moving forward.
 - Rocky Mountain Area's proposal to pilot CIMTs for 2022 will be decided upon by NMAC.
 - Offered to develop a list of alternative qualification options, namely for Type 2 personnel, for parent consideration, given depth of IWDG's discussion on the benefits and challenges of the options. Would assist IPSC work on the transition plan.
 - Continued communications are needed but implemented actions and changes will be a powerful communication tool for field.
