A: Not sure, Lorri, this should be a ROSS feed, will get back to you

Q: How would you like to see FIMT integrated to the EGP?[Andy Kirsch] [andy\_kirsch@nps.gov] [Q: 11:08 AM]

Q: Pulling from ROSS is the perfect answer - as soon as ROSS has this it should be here then![Lorri Peltz-Lewis] [lpeltzlewis@fs.fed.us] [Q: 11:08 AM]

Audience Question:

Q: Do EGP account passwords expire?[Rob Daley] [rob\_daley@nps.gov] [Q: 11:06 AM] [A: 11:09 AM]

A: At this time, it is not required to do so every 30, 60, or 90 days. Security measures may change for this application in the future, however.

Audience Question:

Q: Those colors do not follow 508 best practices.[Robert Clemans] [rjclemans@fs.fed.us] [Q: 11:04 AM] [A: 11:11 AM]

A: If there is something that someone with color blindness cannot see and would like an explanation, we will be available to get that information to them in a table format or by other means

Audience Question:

Q:

suggestion for the resource assignment point and density display using ROSS data ... That tanker in California shown in the

demo that was assigned for 33 days was ordered under Preparedness/Preposition incident type, not as Wildfire. You might want to filter by Incident\_Type in your ROSS query to only reflect resources committed to actual incidents, not those ordered under Preparedness/Preposition. Or maybe give the user the option to display both or either. [Crystal Stonesifer] [csstonesifer@fs.fed.us] [Q: 11:09 AM] [A: 11:12 AM]

A: That is a great suggestion, thank you!

Q: we cannot possibly limit this to one [Barb Geringer] [barb.geringer@ventura.org] [Q: 11:15 AM]
