## 2006 REVISION SUMMARY

### **Background**

The following summarizes the January 2006 revision of the *Wildland Fire Qualification System Guide* (PMS 310-1) and identifies major changes since the January 2000 version. This revision involved field review, solicitations of comments from state, tribal, and federal agencies under the National Wildfire Coordinating Group (NWCG), and the combined efforts of NWCG Working Teams.

### **Objectives**

Establish minimum interagency training and qualification standards for *national mobilization* to wildland fire assignments.

Maintain the foundation of the performance based qualification system established in previous versions of this guide.

Strengthen the training and qualifications standards for positions related to responder health and fireline safety identified in agency reviews, as a result of national studies, and through subject matter expert (SME) input during the development process.

Keep required training to a minimum and allow for other training which supports the development of knowledge and skills to be determined at the agency level.

### **Major Changes**

To maintain definition consistency and clarity among NWCG documents, the term *Wildland Fire* is used when Wildfire, Wildland Fire Use, and Prescribed Fire are referred to collectively. The title of the 310-1 has changed to reflect this usage. When referring separately to Wildfire, Wildland Fire Use, or Prescribed Fire, use that specific term. Specific terms will be used in position task book Qualification Record Code Columns.

Positions have been deleted or added. Requirements have changed for some positions, particularly positions essential to providing for responder health and safe incident operations. Published NWCG directives since the 2000 version have been incorporated into this version.

Position titles and codes may change to become compliant with National Incident Management System (NIMS) and other requirements.

Updated Position Qualification terms include: Required Training, Required Experience (previously Prerequisite Experience), Physical Fitness Level, Other Position Assignments That Will Maintain Currency, and Other Training Which Supports Development of Knowledge and Skills (previously Additional Training Which Supports Development of Knowledge and Skills).

Recurrent training (RT) has been identified for certain positions. Annual Fireline Safety Refresher (RT-130) training is required to maintain currency for designated positions.

For any position assigned to the fireline for non-suppression tasks, Annual Fireline Safety Refresher (RT-130) is mandatory and the required Physical Fitness Level shall be “Light.”

Required Experience includes qualification in a designated prerequisite position and successful position performance through completion of the applicable position task book.

For positions that do not require a Physical Fitness Level, the term “None Required” replaces the term “None.”

Other Training Which Supports Development of Knowledge and Skills provides a reference to training which may improve employee proficiency—but is not required.

The Firefighter Type 1 (FFT1) and Incident Commander Type 5 (ICT5) Position Task Books have been combined. However, *the positions have not been combined*. The FFT1 tasks are completed only once; additional tasks must be completed to meet the ICT5 level. The FFT1 and ICT5 tasks can be completed simultaneously. The Required Experience is satisfactory performance as a Firefighter Type 2 (FFT2).

The Task Force Leader (TFLD) and Strike Team Leader (STDZ, STEN, STCR, STPL) Position Task Books have been combined. However, *the positions have not been combined*. Strike Team Leader tasks are completed only once. The Required Experience for TFLD must be met prior to completing additional TFLD tasks. Upon satisfactory performance in the prerequisite single resource boss position, the specific strike team leader task book may be initiated. Once qualified as a Strike Team Leader, any additional single resource boss qualifications will also qualify the individual in that corresponding strike team leader position—without having to complete the Strike Team Leader PTB for the new position—once agency certification is documented on the PTB Certification page.

The position of Division/Group Supervisor (DIVS) has an additional Required Experience option which includes satisfactory performance as an Incident Commander Type 4 (ICT4) + any two Strike Team Leader positions (one must be either Strike Team Leader Engine [STEN] or Strike Team Leader Crew [STCR]).

The title of the Safety Officer Type 3 position has been changed to Safety Officer, Line (SOFR), and the title of Information Officer Type 3 has been changed to Public Information Officer (PIOF). These positions are entry level, are not prerequisites for higher qualifications, and are not tied to the complexity of an incident.

The Fire Use Manager (FUMA) position has been separated into two positions: Fire Use Manager Type 1 (FUM1) and Fire Use Manager Type 2 (FUM2).

The Ignition Specialist positions (RXI1 & RXI2) have been replaced with the Firing Boss (FIRB) position.

The following six criteria must be met for a position to be considered for inclusion in the 310-1:

1. The position is needed for national mobilization;
2. The position is interagency in scope;
3. The position has been reviewed and is supported by the interagency community;
4. The position supports the NWCG mission;
5. The position qualifications have been submitted by an NWCG member agency, Geographic Area Coordinating Group, or NWCG working team;
6. No other position exists that can accomplish these tasks.

There are five position categories recognized by the National Wildfire Coordinating Group (NWCG):

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities
5. Technical Specialists

The NWCG Incident Operations Standards Working Team (IOSWT) has established and approved qualifications and position task books for the following four position categories:

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities

Although position codes have been assigned to technical specialist positions that can be used within the Incident Command System, no minimum qualifications have been established by NWCG.

For titles and position codes of identified technical specialists see the Incident Qualifications and Certification System (IQCS) website <http://www.nifc.gov/iqcs>.

## INTRODUCTION

The *Wildland Fire Qualification System Guide* (PMS 310-1), developed under the sponsorship of the National Wildfire Coordinating Group (NWCG), is designed to:

1. Establish minimum requirements for training, experience, physical fitness level, and currency standards for wildland fire positions which all participating agencies have agreed to meet *for national mobilization*. Standards may be augmented to meet specific needs within an agency, but the augmentation cannot be imposed by an agency on its cooperators that meet the minimums outlined in this guide.
2. Allow cooperating agencies to jointly agree upon training, experience, physical fitness level, and currency standards to meet fire management needs for wildland fire (*wildland fire* includes wildfire, wildland fire use, and prescribed fire).
3. Establish minimum qualifications for personnel involved in prescribed fires which are of moderate complexity or higher and on which resources of more than one agency are utilized. For prescribed fires of low complexity, agency and local cooperators determine qualifications.

Any organization or agency providing resources to fill national interagency requests for incidents or multi-agency prescribed fires of moderate or higher complexity will be expected to meet the minimum NWCG requirements described in this guide.

The National Wildfire Coordinating Group (NWCG) recognizes the ability of cooperating agencies at the local level to jointly define and accept each other's qualifications for initial attack, extended attack, and large fire operations.

### **How the 310-1 relates to the National Response Plan (NRP)**

The National Response Plan (NRP) was developed to establish a comprehensive, national approach to all-hazard domestic incident management across a spectrum of activities including prevention, preparedness, response, and recovery.

The primary mission for the NWCG is wildland fire management. However, the guidance in the 310-1 will help personnel maintain the skills necessary for success in all-hazard incidents and supports the preparedness elements of the NRP.

Wildland fire agencies have the ability to make significant contributions to emergency management requirements—regardless of source. This qualification system guide supports the ability of agency personnel to meet the requirements of the NRP and National Incident Management System (NIMS).

## **DESCRIPTION OF THE PERFORMANCE BASED SYSTEM**

In the performance based Wildland Fire Qualification System, qualification is based on completion of Required Training and demonstrated successful position performance by completing the applicable position task book on wildland fires, events, incidents, job activities, and in simulated exercises or classroom activities.

The primary criterion for qualification is individual performance as observed by an Evaluator qualified in that position, and properly documented in an approved NWCG position task book (PTB). Position task books contain all critical tasks which are required to perform the job. The process of demonstrating the abilities to perform the position is the completion of a PTB. The tasks in each PTB have been established by subject matter experts from all NWCG agencies and geographical areas of the United States, and tested and approved by the NWCG.

Position task books are in a format which allows for documentation of a Trainee's ability to perform each task. Tasks pertaining to tactical decision making and safety require position performance on a wildland fire. Remaining tasks may be evaluated through other means such as a simulation, or emergency or non-emergency incident/event.

Successful completion of all required tasks of the position, as determined by the Evaluator(s), will be the basis for recommending certification. Certification and documentation of completed PTBs is the responsibility of the employing agency certifying that the individual is qualified to perform in a specific position.

Individuals are responsible for providing proof of qualification on an incident.

## CERTIFICATION AND RECERTIFICATION

Agency certification and documentation of successful position performance (completion of the task book) is the responsibility of the employing agency. This certification indicates the individual is qualified to perform in a specific position.

Each agency is responsible for annually certifying qualifications of its personnel based upon the requirements of this guide and agency specific requirements supplementing this guide. This responsibility includes evaluation of personnel for recertification in cases where position qualifications are no longer valid due to a lack of current experience.

Completion of Required Training and Experience alone does not guarantee an individual will be qualified to perform in a position. Certification and recertification is a subjective determination each individual agency must make based on task evaluations, position performance evaluations, and their own judgment of the quality of an individual's experience.

The quality of experience should be closely evaluated when making a determination for advancement to the next higher position, to a different position, or for recertification. The quality of experience may relate to the variety of fuel types in which an individual has performed, the size and complexity of the incident or event in terms of personnel, equipment, and operations, and the number of assignments.

Agencies shall *not* certify private contractors except where formal agreements are in place. Clauses in contracts are to include stipulations that specify the service provider must meet the standards found in this guide.

Casuals/emergency workers must meet hiring or certifying agency's requirements.

## POSITION QUALIFICATIONS

### Required Training

Required Training provides a direct link between training and job performance to provide for responder health and safe operations on wildland fires. Required Training cannot be challenged and must be completed prior to initiating a position task book (PTB). Agency equivalent courses may be substituted for required courses. For information on Course Equivalency Guidelines consult the *Field Manager's Course Guide* available on the NWCG Training Working Team website at <http://www.nwcg.gov/teams/twt/training.htm>.

**Command and General Staff Exception:** For positions that include S-420, S-520, and S-620 as Required Training, position task books and the qualification process can be initiated prior to attendance and successful completion of these three courses.

**Firefighter Type 2 (FFT2) Exception:** Satisfactory completion of the Required Training meets the position qualification requirements. The FFT2 position does not require completion of the FFT2 Position Task Book.

### Recurrent Training

In order to maintain currency, some positions have identified recurrent training (RT) at various intervals. For more information, consult the *Field Manager's Course Guide*.

#### Annual Fireline Safety Refresher (RT-130) Training

Attendance at an Annual Fireline Safety Refresher (RT-130) is required for designated positions in this guide in order to maintain currency, and for all personnel assigned to positions with fireline duties and for any position assigned to the fireline for non-suppression tasks.

Annual Fireline Safety Refresher (RT-130) training will focus on mandatory core content subjects and not on a minimum timeframe standard. The required number of hours is determined by the agency.

Core content is listed under Wildland Fire Safety Refresher Training at <http://www.nifc.gov/wfstar/index.htm>.

### Required Experience

Required Experience includes qualification in any prerequisite position and successful position performance through completion of the position task book. Required Experience cannot be challenged.

## Physical Fitness Levels

Personnel must meet established physical fitness levels for wildland fire assignments. Agencies may determine the method of evaluating the physical fitness level of their personnel. However, the testing method should be a measurable evaluation process.

The physical fitness levels for some positions (for example, strike team leader) have been modified based on research completed by the Missoula Technology & Development Center (MTDC). For more information see <http://fsweb.mtdc.wo.fs.fed.us/>

Four levels of physical fitness have been established:

1. **Arduous.** Duties involve field work requiring physical performance calling for above-average endurance and superior conditioning. These duties may include an occasional demand for extraordinarily strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Requirements include running, walking, climbing, jumping, twisting, bending and lifting more than 50 pounds; the pace of work typically is set by the emergency situation.
2. **Moderate.** Duties involve field work requiring complete control of all physical faculties and may include considerable walking over irregular ground, standing for long periods of time, lifting 25 to 50 pounds, climbing, bending, stooping, squatting, twisting and reaching. Occasional demands may be required for moderately strenuous activities in emergencies over long periods of time. Individuals usually set their own work pace.
3. **Light.** Duties mainly involve office type work with occasional field activity characterized by light physical exertion requiring basic good health. Activities may include climbing stairs, standing, operating a vehicle and long hours of work, as well as some bending, stooping or light lifting. Individuals can usually govern the extent and pace of their physical activity.
4. **None Required.** Positions that do not require a physical fitness level.

For any position assigned to the fireline for non-suppression tasks, the required physical fitness level shall be "Light."

## Currency Requirements

For the positions identified in this guide, the maximum time allowed for maintaining currency is three (3) years for air operations and dispatch positions and five (5) years for all others.

Currency for a position can be maintained by meeting any of the following requirements:

1. By successful performance in the position qualified for within the given timeframe.
2. By successful performance in a position identified in this guide as Other Position Assignments That Will Maintain Currency.
3. By successful performance in a higher position(s) for which that position is a prerequisite, providing the individual was previously qualified in that position.

**Example:** Currency for a Resources Unit Leader (RESL) can be maintained by (1) successful performance as a Resources Unit Leader (RESL); or, (2) successful performance as a Demobilization Unit Leader (DMOB) or Status/Check-In Recorder (SCKN); or, (3) successful performance as a Planning Section Chief Type 2 (PSC2) within five years.

## Other Training Which Supports Development of Knowledge And Skills

Personnel are not required to complete NWCG courses referenced under “Other Training Which Supports Development of Knowledge and Skills” in order to qualify for an NWCG position—unless specific agency policy dictates otherwise.

Personnel may learn skills from other sources (structural fire, law enforcement, search and rescue, or other agency specific training programs), rather than through actual performance on a wildland fire or in NWCG curricula.

Although training referenced here is not “required,” the training provided in the identified courses or Job Aids, or knowledge and skills acquired through on-the-job training, work experience, or training determined by one’s agency, is a primary means by which personnel can prepare for position performance evaluation by obtaining specific knowledge and skills required to perform tasks identified in the PTB.

For more information on training courses, Job Aids, curriculum history, and course revision schedule, refer to the NWCG Training Working Team website at <http://www.nwcg.gov/teams/twt/training.htm>. The *Field Manager’s Course Guide* (also available at this site) is the authoritative reference for all courses within the NWCG curriculum.

## **National Wildfire Coordinating Group (NWCG) Compliance with National Incident Management System (NIMS) Training**

According to the NIMS Integration Center, emergency management and response personnel already trained in Incident Command System (ICS) using the National Interagency Incident Management System (NIIMS) ICS curriculum model do not need retraining if their previous training is consistent with the Department of Homeland Security (DHS) standard.

This would include (but not be restricted to) courses managed, administered, or delivered by the Emergency Management Institute, US Fire Administration's National Fire Academy, National Wildfire Coordinating Group (NWCG), US Department of Agriculture (USDA), Environmental Protection Agency (EPA), and the US Coast Guard.

### **INCIDENT COMPLEXITY (Wildfire and Wildland Fire Use)**

The agency administrator or designated representative must determine the complexity of an incident and assign qualified personnel as needed. In situations where multiple agencies and jurisdictions are involved, the determination of complexity and qualifications should be made jointly.

There are many factors that determine incident complexity: size, location, threat to life and property, political sensitivity, organizational complexity, jurisdictional boundaries, values to be protected, fuel type, topography, agency policy, etc. For more specific guidance on determining types of complexity, refer to the NWCG *Fireline Handbook* (PMS 410-1, NFES 0065) and the *Incident Response Pocket Guide* (PMS 461, NFES 1077).

### **PRESCRIBED FIRE COMPLEXITY**

For prescribed fire, the NWCG *Prescribed Fire Complexity Guide* (PMS 424, NFES 2474) is an aid for use in this process, although agencies can develop their own specific determination procedures.

For prescribed fires evaluated to have low complexity, the agency and its local cooperators will jointly agree on qualification requirements. An agency can also establish its own qualifications for higher complexity prescribed fires where the resources of other agencies are not utilized. For prescribed fires which are of moderate complexity or higher and on which resources of more than one agency are utilized, the minimum qualifications established in this guide are required.

## POSITION CATEGORIES

### Criteria for Position Consideration in the 310-1

The following six criteria must be met for a position to be considered for inclusion in the 310-1:

2. The position is needed for national mobilization;
2. The position is interagency in scope;
3. The position has been reviewed and is supported by the interagency community;
4. The position supports the NWCG mission;
5. The position qualifications have been submitted by an NWCG member agency, Geographic Area Coordinating Group, or NWCG working team;
6. No other position exists that can accomplish these tasks.

There are five position categories recognized by the National Wildfire Coordinating Group (NWCG):

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities
5. Technical Specialists

The NWCG Incident Operations Standards Working Team (IOSWT) has established and approved qualifications and position task books for the following four position categories:

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities

### Technical Specialists

Although position codes have been assigned to technical specialist positions that can be used within the Incident Command System, no minimum qualifications have been established by NWCG.

For titles and position codes of identified technical specialists see the Incident Qualifications and Certification System (IQCS) website <http://www.nifc.gov/iqcs>.

**Incident Command System (ICS):** positions in the ICS organizational chart recognized by NWCG for use on wildland fires and for response to all-hazard incidents. This category includes ICS positions approved under the National Incident Management System (NIMS).

Positions with an \* have agency established qualifications and no NWCG position task book.

Incident Business Advisor Type 2 (IBA2)  
Initial Attack Dispatcher (IADP)  
Radio Operator (RADO)  
Single Engine Air Tanker Manager (SEMG)  
Take-Off and Landing Coordinator (TOLC)  
Training Specialist (TNSP)

**Associated Activities:** positions needed for associated activities not directly involved in or in support of an incident.

Prevention Education Team Leader (PETL)  
Prevention Education Team Member (PETM)  
Wildland Fire Investigator (INVF)

**NATIONALLY MOBILIZED  
AREA COMMAND, AND TYPE 1 AND TYPE 2  
INCIDENT MANAGEMENT TEAMS**

To become eligible for participation on an Area Command Team, any person filling a team position must successfully complete Area Command (S-620).

To become eligible for participation on a National Type 1 Incident Management Team, any person filling a team position as the Incident Commander, Safety Officer, Information Officer or General Staff must successfully complete Advanced Incident Management (S-520).

To become eligible for participation on a Type 2 Incident Management Team, any person filling a team position as the Incident Commander, Safety Officer, Information Officer or General Staff must successfully complete Command and General Staff (S-420).

An individual, having successfully completed the S-420, S-520, or S-620 course, does not need to reattend for the purpose of changing functions on a team at the appropriate level—such changes will be governed by meeting the requirements of the applicable position task book and receiving agency certification.

## POSITION TASK BOOK (PTB) DESIGN AND USE

Position task books are designed primarily for the evaluation of individual performance or as a checklist for recertification, but they may also be used as a basis for on-the-job training.

### **Position Task Book Initiation**

For positions *without* Required Training, a Trainee must be qualified in any prerequisite position before the PTB can be initiated. A Trainee cannot be assigned to an incident unless they are qualified as a Trainee on their Incident Qualification Card or other agency proof of certification.

For positions *with* Required Training, a Trainee must be qualified in any prerequisite position and successfully complete all Required Training before the PTB can be initiated.

Exception: for positions that include S-420, S-520, and S-620 as Required Training, position task books and the qualification process can be initiated prior to attendance and successful completion of these three courses.

### **Position Task Book Completion Timeframes**

As of January 31, 2006, the standards established in this edition of PMS 310-1 are to be met by all participating agencies. Individuals who have begun the process of qualifying for a position under the January 2000 edition can continue to use those standards as long as they complete the process prior to December 31, 2008.

Any individual who has begun the evaluation process need not take any newly required course(s) for that position. Additionally, personnel who are qualified in a position prior to the implementation of this revision may retain certification at the discretion of their agency. To qualify in any other position, the individual must meet the standards identified herein.

Position task books have a limited time in which they can be completed:

A PTB is valid for three years from the day it is initiated. Upon documentation of the first task in the PTB, the three-year time limit is reset from that new date.

If the PTB is not completed in three years from the date of the PTB initiation (or first task being evaluated) the PTB will no longer be valid. A new PTB may be initiated, but all current qualification standards will then apply.

## Position Task Book Sections

Accurate completion of position task books (PTBs) is important to the qualification process. The introductory information in each PTB provides a brief description of how the PTB is to be used and the responsibilities of those involved.

The **Cover** includes the title of the position and, if applicable, states that a “wildfire,” “wildland fire use,” or “prescribed fire” (or a “*wildland fire*” if referring to wildfire, wildland fire use, and prescribed fire collectively) assignment is required prior to certification.

The cover also contains a block of information that includes the name of the individual (Trainee), the person initiating the PTB, and the date it was initiated. The Home Unit/Certifying Official or Training Specialist (TNSP)—with Home Unit approval—will enter this information.

The **Verification/Certification of Completed Task Book** on the reverse side of the cover provides a record of the final Evaluator’s recommendation and agency certification. The final Evaluator will complete the verification section recommending certification and the Home Unit/Certifying Official, when appropriate, will complete the certification.

The **Qualification Record** includes:

- (1) The left column with a list of tasks that must be performed. If a specific standard (quality or quantity) is required, it will be specified in the task. Subitems of tasks, identified as bullet statements, further define what is included in the task and how the task is to be performed. All bullet statements within a task which require an action must be demonstrated before that task can be signed off. Evaluators may sign off any number of subtasks (bullets). This can be done by one or more Evaluators.
- (2) The column labeled **CODE** will contain a code that specifies the type of situation in which the task must be completed.

Tasks labeled with an “**O**” can be completed in a variety of situations. Successful completion of a training course which tests knowledge/skills associated with the task is acceptable, as is evaluation of performance under simulated or on-the-job situations. Assignment to an incident is not required.

For example, an administrative officer, as a part of their regular job, may perform many of the tasks associated with a finance/administrative position for which they have been identified as a Trainee. In this case, an Evaluator may observe and document performance of the “**O**” task in the regular job setting.

Tasks labeled with an **“I” (incident)** must be performed on an incident which is managed using the Incident Command System (ICS). Types of incidents include wildland fire, structural fire, search and rescue, hazmat, oil spill, and an emergency or non-emergency (planned or unplanned).

Tasks labeled with a **“W” (wildfire)** must be performed on a wildfire incident.

Tasks labeled with an **“RX” (prescribed fire)** must be performed on a prescribed fire incident.

Tasks labeled with a **“WFU” (wildland fire use)** must be performed on a wildland fire use incident.

Tasks which carry both **“W” and “RX”** codes may be demonstrated on either a wildfire or a prescribed fire incident.

Tasks labeled with an **“R” (rare event)** rarely occur and opportunities to evaluate performance in a real setting are limited. Examples include accidents, injuries, vehicle or aircraft crashes, etc. The Evaluator may be able to determine, through interview, if the Trainee would be able to perform the task in a real situation.

- (3) The column labeled **“Evaluation Record #”** refers to the numbered evaluation records at the end of the PTB. Each Evaluator will complete an evaluation record and enter the number of that record to reference completed tasks.
- (4) The right-hand column provides space for the Evaluator to initial and date when the task is completed. All tasks must be completed, initialed and dated before the Trainee can be recommended for certification in the position.

The **Evaluation Record** (four blocks at the end of the PTB) is for recording information about the type and complexity of the incident on which the evaluation was made and the recommendations of the Evaluator. Additional copies of the Evaluation Record can be made if more than four blocks are needed.

## **Position Task Book Responsibilities**

Documentation of training, experience, and the qualification process is the responsibility of the local hosting agency. Documentation of training, experience, and the qualification process for contractors and their employees is the responsibility of the contractor, except where formal agreements are in place.

### **The Home Unit/Certifying Official**

The Home Unit/Certifying Official is the designated agency that employs the individual. This could be a field office, district, county, state, park, reservation, or similar entity, and/or the administrator who manages the qualification system.

It is the responsibility of the Home Unit/Certifying Official to:

Select Trainees, based upon the needs of the Home Unit/Certifying Official and agreements with cooperators.

Ensure individuals selected as Trainees are qualified in any prerequisite position and have successfully completed all Required Training prior to task book initiation, task evaluation and/or position performance.

Example: A Trainee selected for the position of Crew Boss, Single Resource (CRWB) must have documented, satisfactory position performance as a Firefighter Type 1(FFT1), and must have successfully completed Crew Boss (Single Resource) (S-230) and Intermediate Wildland Fire Behavior (S-290).

Initiate and explain the purpose and proper use of the PTB, and the training, qualification and certification process. Position task books can only be initiated by the Home Unit/Certifying Official or a Training Specialist on an incident (with clear indication from the Home Unit/Certifying Official that such an action is acceptable).

Ensure the Trainee has the opportunity to acquire the knowledge/skills necessary to perform the position. This includes completion of training courses and on-the-job training assignments. It is important to ensure that the Trainee is fully prepared to perform the tasks of the position prior to undertaking a position performance assignment.

Provide opportunities for non-incident (“O”) task evaluation, for position performance assignments on local incidents, and/or make the Trainee available for assignments to larger incidents. The Home Unit/Certifying Official must provide an Evaluator for local incidents. Evaluators must be qualified in the position they are evaluating. The only exception is when a subject matter expert is assigned by the Home Unit/Certifying Official to evaluate “O” tasks.

Track the progress of the Trainee. This is a responsibility the Home Unit/Certifying Official shares with the Trainee. The PTB should be reviewed and the training plan reevaluated after each position performance assignment.

Review and confirm the completion of the PTB and make a determination of certification. This determination should be made based on specific knowledge of the individual's capabilities and as well as the completed PTB. Only the Home Unit/Certifying Official has the authority to certify an individual's qualifications.

Issue proof of certification as required by PMS 310-1. This proof is normally an incident qualification card.

### **The Trainee**

The Trainee is the individual, approved by their agency, who is preparing to qualify for a position. The Trainee is eligible for formal, on-the-job training.

It is the responsibility of the Trainee to:

Review and understand the instructions in the PTB.

Meet with the Trainer/Coach and/or Evaluator and identify desired goals and objectives for an assignment.

Ensure readiness to perform the tasks of the position prior to undertaking a position performance assignment. This includes completing Required Training, and acquiring the knowledge and skills needed to perform the job tasks. On-the-job training assignments may assist in acquiring knowledge and skills.

Provide background information (training and experience) to the Trainer/Coach and/or Evaluator.

Complete the PTB within the three-year time limit. If the PTB is not completed in three years from the date of the PTB initiation (or first task being evaluated), the PTB will no longer be valid. A new PTB may be initiated, but all current qualification standards will then apply.

Ensure a qualified Evaluator completes the appropriate Evaluation Record, initials completed tasks, and enters a number in the Evaluation Record # column.

Provide a copy of the completed PTB to the Home Unit/Certifying Official.

Retain the original PTB. This is extremely important as the PTB is the only record of task performance. A lost or destroyed PTB may require additional position performance assignments.

Provide proof of qualifications on an incident.

## **The Evaluator**

The Evaluator is the person who actually observes the task(s) being performed and documents successful performance for certification/recertification purposes. The Evaluator and the Trainer/Coach may be the same person; however, the functions of training and evaluation must remain separate (see Trainer/Coach below).

It is the responsibility of the Evaluator to:

Be qualified in the position being evaluated. The only exception is when a subject matter expert is assigned by the Home Unit/Certifying Official to evaluate "O" tasks.

Meet with the Trainee and determine past experience and training, current qualifications, desired goals and objectives of the assignment.

Note: If an Evaluator determines the Trainee does not meet the prerequisite Required Experience or does not have the knowledge/skills to perform the tasks of the position, then the position performance assignment must not continue. At the discretion of the Evaluator or Training Specialist, and if the individual meets the prerequisite Required Experience, it may be possible to provide on-the-job training and reinstate the Trainee into the position performance assignment at a later time during the same incident.

Review the tasks in the PTB with the Trainee and explain the procedures that will be used in the evaluation and the objectives which should be met during the assignment.

Reach agreement with the Trainee on the specific tasks which can be performed and evaluated during the assignment.

Accurately evaluate and record the demonstrated performance of tasks. This is the Evaluator's most important responsibility; it provides for the integrity of the performance based qualification system.

Complete the appropriate evaluation record in the back of the PTB. If more than one position performance assignment is necessary, the Evaluator will complete an evaluation record for each assignment.

Complete the verification statement inside the front cover of the PTB once all tasks in the PTB have been completed and signed off. Only the Evaluator on the final position performance assignment (the assignment in which all remaining tasks have been evaluated and signed off) will complete the verification statement recommending certification.

## **The Trainer/Coach**

The Trainer/Coach provides instruction to a Trainee. This may be in the classroom, on-the-job, or on an incident. While many of the requirements of the Trainer/Coach are similar to those of an Evaluator, the roles of training and evaluation must remain separate:

For example, a Trainer/Coach may be instructing a Trainee in pump operation tasks. When the Trainee appears to have mastered the tasks, the Trainer/Coach can become the Evaluator and observe and record performance of the task. It's similar to instructing in the classroom and administering a test. The two functions are separate. They can be performed in sequence, but not at the same time.

It is the responsibility of the Trainer/Coach to:

Be qualified in the position for which training is being provided. The only exception is when a subject matter expert is assigned to provide training for "O" tasks.

Meet with the Trainee and determine past experience and training, current qualifications, desired goals and objectives of the assignment.

Note: If a Trainer/Coach determines that the Trainee does not meet the prerequisite Required Experience or does not have the knowledge/skills to perform the tasks of the position, then the position performance assignment must not continue. The Trainer/Coach can provide on-the-job training and then recommend a position performance assignment at a later time during the same incident.

Review the tasks in the PTB with the Trainee and explain the procedures that will be used in the training assignment and the objectives which should be met during the assignment.

Reach agreement with the Trainee on the specific tasks which can be performed during the assignment.

Document training assignment according to agency policy or Home Unit/Certifying Official procedures.

## **The Training Specialist**

The Training Specialist can be the individual on the Home Unit who is responsible for training and qualifications, or an NWCG qualified Training Specialist (TNSP) on an incident.

It is the responsibility of the Training Specialist to:

Meet with the Trainee and determine the type of assignment necessary (position performance assignment or on-the-job training). Consider past experience and training, current qualifications, desired goals and objectives of the assignment.

Note: If the Trainee does not meet the prerequisite Required Experience for the position or does not have the knowledge/skills to perform the tasks of the position, then the position performance assignment must not continue. If the individual meets the prerequisites but does not have the necessary knowledge/skill, it may be possible to provide on-the-job training and reinstate the performance assignment at a later time during the same incident.

Identify opportunities for on-the-job training and position performance assignments which meet the Trainee's needs and objectives.

Work with the incident or Home Unit/Certifying Official to identify and assign qualified Evaluators.

Initiate a PTB after acquiring authorization from the appropriate agency official of the Home Unit.

Document all on-the-job training and position performance assignments.

Conduct periodic progress reviews to ensure assignments are proceeding as planned.

Conduct a closeout interview with the Trainee and Evaluator to ensure that the PTB has been properly completed.

## **POSITION TASK BOOK SPECIAL CONSIDERATIONS AND EXCEPTIONS**

### **Positions without NWCG Position Task Books**

Individuals in the following positions perform tasks which vary depending on the agency and/or the assignment. Assignment and qualification will be determined by the agency.

- Agency Representative (AREP)
- Air Tanker/Fixed Wing Coordinator (ATCO)
- Interagency Resource Representative (IARR)
- Liaison Officer (LOFR)

### **Positions with the Same Position Task Book for the Type 1 and Type 2 Complexity Levels:**

- Finance/Administration Section Chief Type 1 & Type 2 (FSC1&FSC2)
- Fire Use Manager Type 1 & Type 2 (FUM1&FUM2)
- Helibase Manager Type 1 & Type 2 (HEB1&HEB2)
- Incident Business Advisor Type 1 & Type 2 (IBA1&IBA2)
- Incident Commander Type 1 & Type 2 (ICT1&ICT2)
- Logistics Section Chief Type 1 & Type 2 (LSC1&LSC2)
- Operations Section Chief Type 1 & Type 2 (OSC1&OSC2)
- Planning Section Chief Type 1 & Type 2 (PSC1&PSC2)
- Prescribed Fire Burn Boss Type 1 & Type 2 (RXB1&RXB2)
- Prescribed Fire Manager Type 1 & Type 2 (RXM1&RXM2)
- Public Information Officer Type 1 & Type 2 (PIO1&PIO2)
- Safety Officer Type 1 & Type 2 (SOF1&SOF2)

For positions having the same PTB, Trainees are required to complete an initiated PTB for each complexity level. When the PTB is initiated, the applicable level should be identified by crossing out the nonapplicable position identifiers on the PTB cover.

Example: A Trainee completes a PTB for Incident Commander Type 2 (ICT2) and receives certification from the Home Unit/Certifying Official in that position. When the Home Unit/Certifying Official determines the individual has demonstrated satisfactory performance in the Required Experience position(s) and has successfully completed any Required Training, a new Incident Commander Type 1 & Type 2 (ICT1&2) PTB is initiated. Crossing out ICT2 on the cover indicates the Trainee is working to complete the ICT1 Position Task Book.

## **Positions with Combined Position Task Books (PTBs)**

Note: while position task books have been combined, *the positions have not been combined.*

### **Single Resource Boss**

When the PTB for the single resource boss positions is initiated, the applicable position(s) should be identified by crossing out the nonapplicable positions on the cover. The first set of tasks is required for all single resource boss positions. These tasks are completed only once. Additional tasks are required for specific single resource boss positions (CRWB, ENGB, DOZB, TRPB, FIRB, FELB, and HELB).

### **Firefighter Type 1 (FFT1) and Incident Commander Type 5 (ICT5)**

The Firefighter Type 1 (FFT1) and Incident Commander Type 5 (ICT5) Position Task Books have been combined. However, *the positions have not been combined.* The FFT1 tasks are completed only once; additional tasks must be completed to meet the ICT5 level. The FFT1 and ICT5 tasks can be completed simultaneously. The Required Experience is satisfactory performance as a Firefighter Type 2 (FFT2).

### **Task Force Leader (TFLD) and Strike Team Leader (STCR, STEN, STDZ, STPL)**

The Task Force Leader (TFLD) and Strike Team Leader Position (STDZ, STEN, STCR, STPL) Task Books have been combined. However, *the positions have not been combined.* Strike Team Leader tasks are completed only once. The Required Experience for TFLD must be met prior to completing additional TFLD tasks. Upon satisfactory performance in the prerequisite single resource boss position, the specific strike team leader task book may be initiated. Once qualified as a Strike Team Leader, any additional single resource boss qualifications will also qualify the individual in that corresponding strike team leader position—without having to complete the Strike Team Leader PTB for the new position—once agency certification is documented on the PTB Certification page.

## **REVIEW AND UPDATE PROCESS FOR THE 310-1 AND POSITION TASK BOOKS**

### **310-1**

A formal revision of the 310-1 will occur every five years. However, the Incident Operations Standards Working Team (IOSWT) may review proposals and address issues at any time. All NWCG agencies will be requested to review and provide input for the proposed revision prior to the revision being adopted by NWCG.

### **Position Task Books (PTBs)**

Comments and proposals on position task books and the qualification process must be submitted through the appropriate agency official or geographic area coordination group (GACG) to the Incident Operations Standards Working Team (IOSWT).

The IOSWT may review PTB and qualification proposals and address issues at any time. The IOSWT will consult with subject matter experts and NWCG working teams as appropriate, and recommend adoption or rejection by the NWCG.

Position task books which may be developed for positions not identified within the 310-1 must be submitted to the IOSWT for review and approval as NWCG positions.

Information on updates to the 310-1, decisions affecting new positions, changes in qualifications, and new, revised, and approved position task books is available on the NWCG/IOSWT website at <http://www.nwcg.gov>.
