MEMORANDUM

Reference: NWCG#029-2010

To: Kirk Rowdabaugh, Chair
Fire Executive Council (FEC)

From: NWCG Chair *William Raage*

Date: July 1, 2010

Subject: National Wildland Fire Enterprise Architecture (NWFEA) Blueprint
Version 2.9 – Amendment #1

NWCG received a request from Jim Rolfes, Chief Architect for the Department of Interior (DOI) to review and update the NWFEA Blueprint prior to the July 8, 2010 DOI Investment Review Board Meeting. The intent of the update focused on updating the dates and status in the document related to the recommendations. With the assistance of the DOI's Chief Architect, all past and near dates were noted.

Updating a document as extensive as the NWFEA Blueprint requires assuring all dates related to each specific recommendation are updated throughout the document. In lieu of a detailed edit of the dates, the NWCG Architects recommended an Amendment to the Blueprint to identify in one place the status or revised action date of each recommendation with a date. You will find the Amendment #1 attached.

NWCG has initiated many of the recommendations found in the Blueprint, and we are currently updating the NWCG Strategic Plan and actions which incorporates the recommendations in the Blueprint for which NWCG is responsible. You will also note that we are recommending the references and charts regarding Sequencing Plan within the Blueprint be deleted. The logic to this recommendation is that many of the items have been initiated or completed; therefore, sequencing is no longer relevant as portrayed.

The Fire Executive Council approved the NWFEA Blueprint Version 2.9 in July 2008. Therefore, NWCG is providing the FEC with Amendment #1 and requesting that it be forwarded to the DOI Chief Architect, Jim Rolfes. NWCG understands that Mr. Rolfes would like to request approval of the NWFEA Blueprint, Version 2.9, from the DOI Investment Review Board at their scheduled meeting on July 8, 2010.
