MEMORANDUM

Reference: NWCG#005-2011

To: NWCG Committee Chairs

From: NWCG Chair *William Raage*

Date: May 31, 2011

Subject: Interagency Prescribed Fire Planning and Implementation Procedures Guide –
Review and Update

The NWCG Fuels Management Committee's Fire Use Subcommittee is reviewing the *Interagency Prescribed Fire Planning and Implementation Procedures Guide, July 2008* (Rx Guide). The focus of this review is to ensure the Rx Guide meets the Fiscal Year 2009 *Guidance for Implementation of Federal Wildland Fire Management Policy*, and to ensure firefighter and public safety in successful application of prescribed fire to meet management objectives.

The Rx Guide provides standardized policy, specifically associated with the planning and implementation of prescribed fire, and describes minimal acceptable requirements for all phases of a prescribed fire for federal signatory agencies. However, federal agencies may choose to provide additional standards and policy direction.

The Subcommittee is interested in your agency comments, suggestions, and recommendations specifically on the following:

- Agency Administrators Pre-Ignition Check List and Prescribed Fire Go/No Go Checklist (Element 2)
- Complexity (Element 3)
- Project Boundary (Element 4a)
- Contingency (Element 17)
- Landscape Scale/Long Duration Prescribed Fires (Multiple Elements)
- Declared Wildfire Reviews (p31 of RX Guide)
- Adding Examples and Hints to the Guide

To facilitate compilation of the comments, please use the attached template - *Rx Guide Review Response Form* to submit your comments. The form contains questions covering the topics to be addressed in the review.

Comments will be reviewed and consolidated from all committees and subgroups. Please submit your comments no later than **August 1, 2011** to either, Paul Langowski, U.S. Forest Service, plangowski@fs.fed.us, or Kim Van Hemelryck, U.S. Fish and Wildlife Service, kim_vanhemelryck@fws.gov.
