MEMORANDUM

Reference: NWCG#006-2011

To: NWCG Committee Chairs
Geographic Area Coordinating Group (GACG) Chairs
National IC/AC Council Chair

From: NWCG Chair *Wilbur Raage*

Date: June 8, 2011

Subject: Release of June 2011 Wildland Fire Qualification System Guide
(PMS 310-1)

The June 2011 version of the Wildland Fire Qualification System Guide (PMS 310-1) has been released and is available for use by the interagency wildland fire community. The PMS 310-1 provides a cornerstone of our National Interagency Incident Management System by establishing minimum interagency qualification requirements for national mobilization of resources. While the 2011 update closely resembles the previous version, this edition includes significant changes which are summarized in the attached Errata Sheet.

The following Position Task Books (PTBs) have been updated during the current PMS 310-1 revision cycle:

- Strategic Operational Planner (SOPL)
 - Single Resource Boss Heavy Equipment (HEQB)
 - Strike Team Leader Heavy Equipment (STEQ)
 - Aircraft Base Radio Operator (ABRO) and Takeoff and Landing Coordinator (TOLC)
- PTBs have been combined to include common tasks, with additional tasks for specific positions.

Specific information regarding the use of these PTBs is included in the associated transition plan. The updated taskbooks are located at:
<http://www.nwcg.gov/pms/taskbook/taskbook.htm>.

It is important to familiarize yourself with the 2011 PMS 310-1 for a complete understanding of the revisions, and to insure this information is widely distributed within the interagency wildland

fire community. The 2011 PMS 310-1 and associated transition plans can only be found on the NWCG website at <http://www.nwcg.gov/pms/docs/docs.htm> and are not available through the Publication Management System in hard copy. If a hard copy is needed, individual users can download and print the documents as needed.

The NWCG Executive Board and its Operations and Workforce Development Committee (OWDC) have made the decision to change how position currency is defined in the PMS 310-1. A copy of the Draft September 2011 310-1 showing the proposed currency changes is posted at <http://www.nwcg.gov/branches/pre/owdc/index.htm> for your review. A summary of the process utilized and FAQ's is included for reference purposes. The Geographic Area Training Representatives (GATRs) will also be collecting feedback from their respective geographic areas for the proposed 310-1 changes. Recommendations, comments, or questions about the proposed changes to the currency rules can also be directed to your NWCG OWDC representative. Contact information is located at <http://www.nwcg.gov/branches/pre/owdc/roster.htm>. OWDC representatives will be accepting comments until September 2, 2011. These changes will not be finalized and administered in the Incident Qualification and Certification System (IQCS) and the Incident Qualification System (IQS) until September 2011.

Please disseminate this information broadly through your communications networks within the wildland fire community.
