NWCG Unit Identifier Process

NWCG Unit ID CMB

The NWCG Unit ID CMB reviews and gives final approval for Unit IDs and attribute information before new, edit and deletions are published. Maintains change request log for Unit ID platform. Completes procedure and User's guide documents. Is the data steward for Unit ID data standard.

Final Approval

GACC Data Custodians

GACC Data Custodians explain data standard, business rules and procedure for Unit Level NWCG Unit ID requests. If the request conforms to data standard and business rules the GACC Data Custodian assigns a Unit ID and inputs attribute information into electronic database.
