

IMT USE PER AGENCY NATIONWIDE 2004-2013

This snapshot looks at use of Incident Management Teams by agency for a 10 year period, 2004-2013.

- ◆ Pie chart shows national use, and the columns show IMT use by each Geographic Area.
- ◆ Data do not include state IMTs that are not available for national assignment.
- ◆ Data were obtained from NICC reports, FireStat database, and GACC websites.
- ◆ 2004 data were incomplete, and jurisdiction was determined by analyzing a variety of information on the internet.

- ◆ Although many large incidents cross multiple jurisdictions and are managed under unified command, the “use by agency” was assigned to the agency of original jurisdiction, and according to the assigned incident number.
- ◆ Totals in the breakout by Geographic Area do not include FEMA or ‘other’ assignments, and may not total 100%. For example, the Southern Area had 109 IMT activations for FEMA emergencies, which accounts for 62% of their IMT use.

NUMBER OF AGENCY EMPLOYEES APPLYING TO PARTICIPATE ON IMTs IN 2014

Numbers are applicants only, and not actual selected members of IMTs, compiled from ICAP application data. Percent indicates proportion of the applicant pool represented by each agency.

Agency	Count	Percentage
DOI	810	20%
USFS	1979	50%
S,C&L	1182	30%

Geo.Area	DOI	USFS	S,C&L
NATIONAL	262	766	214
	19%	56%	16%
Rocky Mtn	23	32	32
	26%	37%	37%
Nrn. Rockies	29	106	40
	17%	61%	23%
Southwest	28	108	25
	17%	67%	16%
Alaska	21	0	25
	46%	0	54%
California	23	233	13
	8%	86%	5%
Great Basin	92	127	30
	37%	51%	12%
Southern Area	22	19	27
	12%	11%	15%
Eastern Area	0	13	5
	0	13%	17%
Northwest	39	128	46
	18%	60%	22%

USE OF TYPE 1 vs TYPE 2 I.M.T.s, 2004-2013

These tables display how often a Type 1 IMT or Type 2 IMT was assigned to an incident when a Geographic Area requested a team.

For example: Nationally, IMTs were assigned to all known agencies 1,432* times between 2004-2013. Of those incidents, a Type 1 IMT was utilized 24% of the time, and a Type 2 IMT was utilized 76% of the time.

For an agency- and area-specific example, of the 110 IMT assignments to FEMA incidents in the Southern Area, Type 1 IMTs were assigned to 56 incidents, or 51% of the total.

*Note that these numbers do not represent 1,432 unique Incidents, as T1 and T2 IMTs often transition on the same incident as conditions change.
