Location Timestamp

Abbreviation or Acronym: None

Data Exchange Name: LocationTimestamp

Also Known As: None

Short Description: The date/time for the resource’s last known position.

Controls

Collection, Validation, and Exchange Rules

1. Must be submitted in Epoch format.
2. The time must be submitted in milliseconds, and it should be exactly 13 digits in length.
3. See [https://www.epochconverter.com](https://www.epochconverter.com) for help converting dates into this format.
4. IRWIN Validation: Must be valid date format. If nothing is supplied and the shape is updated, the IRWIN will populate this with the modified date/time.
