# National Incident Management System: Wildland Fire Qualification System Guide

October 2018  
PMS 310-1

The *National Incident Management System: Wildland Fire Qualification System Guide* standardizes the minimum National Wildfire Coordinating Group (NWCG) requirements for federal, state, and local agencies in providing resources to fill a national interagency request for all types of wildland fire incidents.

The *Guide*:

- Outlines the minimum requirements for training, experience, physical fitness level, and currency standards for wildland fire positions, which all participating agencies have agreed to meet for national mobilization. Standards may be augmented to meet specific needs within an agency, but the augmentation cannot be imposed by an agency on its cooperators who meet the minimums outlined in this guide.
- Allows cooperating agencies to jointly agree upon training, experience, physical fitness level, and currency standards to meet fire management needs for wildland fire (includes wildfire and prescribed fire).
- Establishes minimum qualifications for personnel involved in prescribed fires on which resources of more than one agency are utilized—unless local agreements specify otherwise.

Any organization or agency providing resources to fill a national interagency request for all types of wildland fire incidents will meet the minimum NWCG requirements described in this guide.

NWCG recognizes the ability of cooperating agencies at the local level to jointly define and accept each other's qualifications for initial attack, extended attack, large fire operations, and prescribed fire.

---

The National Wildfire Coordinating Group (NWCG) provides national leadership to enable interoperable wildland fire operations among federal, state, tribal, territorial, and local partners. NWCG operations standards are interagency by design; they are developed with the intent of universal adoption by the member agencies. However, the decision to adopt and utilize them is made independently by the individual member agencies and communicated through their respective directives systems.

## Summary of Changes

1. Page 7 – Revision Process: modified language to read:  
Required information includes reason for the change, national mobilization statistics demonstrating position need and use, a draft position task books (PTB) (if appropriate), and any specific transition or implementation plan information for individuals currently residing in the Incident Qualification and Certification System (IQCS) and the Incident Qualification System (IQS).
2. Page 7 – Position Task Book:  
Add new language to clarify use of PTB when a new revised PTB is approved:  
When a new or revised PTB is published, current Trainees with an initiated PTB (including those individuals re-initiating or re-certifying) and at least one documented experience should continue to use their current PTB. Individuals with no tasks completed will use the new or revised PTB. Currently qualified individuals will not be affected by the transition to new or revised PTBs.
3. Page 14 – Positions with the Same Position Task Book for Type 2 and Type 1  
Remove Helibase Manager Type 2 & Type 1 (HEB2 and HEB1)
4. Page 18 – Incident Command System Positions  
Remove Helibase Type 1 (HEB1) and Helibase Type 2 (HEB2)  
Added Helibase Manager (HEBM)
5. Page 25 – Incident Commander Type 1 (ICT1)  
Add Liaison Officer (LOFR) to ICT1 Maintains Currency For These Positions
6. Page 27 – Incident Commander Type 2 (ICT2)  
Add Liaison Officer (LOFR) to ICT2 Maintains Currency For These Positions
7. Page 29 - Incident Commander Type 3 (ICT3)  
Added Type 3 All-Hazard Incident Management Team (O-305) to Other Training Which Supports Development of Knowledge and Skills
8. Page 35 – Public Information Officer Type 1 (PIO1)  
Added “Individuals utilizing this pathway must complete the Public Information Officer Course (E/L 952) prior to position qualification.”
9. Page 36 – Public Information Officer Type 2 (PIO2)  
Added “Individuals utilizing this pathway must complete the Public Information Officer Course (E/L 952) prior to position qualification.”
10. Page 38 – Liaison Officer (LOFR)  
Added Incident Commander Type 1 (ICT1) and Incident Commander Type 2 (ICT2) to These Positions Maintain Currency for LOFR
11. Page 49 – Operations Section Chief, Type 3 Wildland Fire (OPS3)  
Added Type 3 All-Hazard Incident Management Team (O-305) to Other Training Which Supports Development of Knowledge and Skills

12. Page 75 – Air Operation Branch Director (AOBD)  
Changed Helibase Manager Type 1 (HEB1) to Helibase Manager (HEBM) under AOBD Maintains Currency for These Positions
13. Page 76 – Air Support Group Supervisor (ASGS)  
Changed Helibase Manager Type 1 (HEB1) to Helibase Manager (HEBM) to Required Experience and ASGS Maintains Currency for These Positions
14. Page 77 – Helibase Type 1 (HEB1) and Helibase Type 2 (HEB2)  
Combined to Helibase Manager (HEBM)
15. Page 78 – Helicopter Manager, Single Resource Boss (HMGB)  
Changed Helibase Manager Type 1 and Helibase Manager Type 2 to Helibase Manager (HEBM)
16. Page 79 – Helicopter Crewmember (HECM)  
Changed Helibase Manager Type 1 and Helibase Manager Type 2 to Helibase Manager (HEBM)
17. Page 80 – Air Tactical Group Supervisor (ATGS)  
Modified Agency Approved Crew Resource Management (CRM) Training to Required Training
18. Page 82 – Single Engine Airtanker Manager (SEMG)  
Added the following to Required Training:
  - a. FAA NOTAM System (A-103)
  - b. Automated Flight Following (A-115)
  - c. Basic Airspace (A-203)

Added Satisfactory performance as Ramp Manager (RAMP) to Required Experience

Added Airtanker Base Manager (ATBM) and Fixed Wing Base Manager (FWBM) to These Positions Maintain Currency for SEMG

Added Ramp Manager (RAMP), Fixed Wing Parking Tender (FWPT), and Aircraft Timekeeper (ATIM) to SEMG Maintains Currency for These Positions
19. Page 83 – Deck Coordinator (DECK)  
Changed Helibase Manager Type 2 (HEB2) to Helibase Manager (HEBM) under These Positions Maintains Currency for DECK
20. Page 84 – Aircraft Base Radio Operator (ABRO)  
Changed Helibase Manager Type 2 (HEB2) to Helibase Manager (HEBM) under These Positions Maintains Currency for ABRO
21. Added the following new Airtanker Base positions:
  - a. Aircraft Timekeeper (ATIM)
  - b. Airtanker Base Manager (ATBM)
  - c. Fixed Wing Base Manager (FWBM)
  - d. Fixed Wing Parking Tender (FWPT)
  - e. Ramp Manager (RAMP)
  - f. Mixmaster (MXMS)
  - g. Retardant Crewmember (RTCM)

22. Added the following Unmanned Aircraft System positions:
  - a. Unmanned Aircraft System Pilot (UASP)
  - b. Unmanned Aircraft System, Module Leader (UASL)
  - c. Unmanned Aircraft System, Manager (UASM)
  - d. Unmanned Aircraft System, Data Specialist (UASD)
23. Page 98 – Planning Section Chief Type 1 (PSC1)  
Added “Individuals utilizing this pathway must complete the Planning Section Chief Course (S- 440) prior to position qualification.”
24. Page 99 – Planning Section Chief Type 2 (PSC2)  
Added “Individuals utilizing this pathway must complete the Planning Section Chief Course (S- 440) prior to position qualification.”
25. Page 101 – Planning Section Chief Type 3 (PSC3)  
Added Type 3 All-Hazard Incident Management Team (O-305) to Other Training Which Supports Development of Knowledge and Skills.
26. Page 120 – Logistics Section Chief Type 1 (LSC1)  
Added “Individuals utilizing this pathway must complete the Logistics Section Chief Course (E/L967) prior to position qualification.”
27. Page 122 – Logistics Section Chief Type 2 (LSC2)  
Added “Individuals utilizing this pathway must complete the Logistics Section Chief Course (E/L967) prior to position qualification.”
28. Page 124 – Logistics Section Chief Type 3 (LSC3)  
Added Type 3 All-Hazard Incident Management Team (O-305) to Other Training Which Supports Development of Knowledge and Skills.
29. Page 147 – Finance Section Chief Type 3 (FSC3)  
Added Type 3 All-Hazard Incident Management Team (O-305) to Other Training Which Supports Development of Knowledge and Skills.
30. Miscellaneous:
  - a. Remove reference ‘on a wildland fire or prescribed fire incident’ from all required experience.
  - b. Course name change for M-581 – Fire Program Management, an Overview.
  - c. Course name update for e-ISuite, All Modules.

## POSITION COMPETENCY AND BEHAVIOR GUIDANCE

The U.S. Fire Administration (USFA) and the National Wildfire Coordinating Group (NWCG), working on behalf of the National Integration Center, Incident Management Systems Integration Division (Department of Homeland Security), identified and compiled a master list of the core competencies and behaviors for each Incident Command System (ICS) position identified in the National Incident Management System (NIMS). Using the master list of NWCG also identified competencies and behaviors for all remaining positions identified in the *NIMS Wildland Fire Qualification System Guide*, PMS 310-1.

The competencies and behaviors form the basis for position-specific training, PTBs, job aids, and other performance-based documents.

The three primary benefits of identifying competencies:

- Competencies are a national “benchmark”; they standardize qualifications without interfering with local decision-making about training.
- Shared competencies make interagency crossover and collaboration easier.
- Competencies are a critical component for the development of performance-based training.

The following brief definitions have been established:

- Competency – A broad description grouping core behaviors necessary to perform a specific function.
- Behavior – A general description of an observable activity or action demonstrated by an individual in a particular context.
- Task – A specific description of a unit of work activity that is a logical and necessary action in the performance of a behavior; how the behavior is demonstrated or performed in a particular context.

Competencies and behaviors across the ICS positions are similar. This similarity may hide critical differences in proficiency level and the environment or type of incident in which the position is expected to perform. These critical differences are typically captured in the task identified for each position.

Each all-hazards discipline will determine which competencies and behaviors apply to positions identified within their discipline and will develop tasks to support the competencies and behaviors for each position. If a discipline wishes to deviate from these master competencies and behaviors, they will be required to work with the National Integration Center for adjudication and approval.

Approved competencies and behaviors by position are located at <https://www.nwcg.gov/publications/position-taskbooks>.

## DESCRIPTION OF THE PERFORMANCE-BASED SYSTEM

In the performance-based Wildland Fire Qualification System, qualification is based on completion of required training and completion and certification of the applicable NWCG PTBs on wildland fires, events, incidents, job activities, and in simulated exercises or classroom activities.

The primary criterion for qualification is individual performance as observed by an Evaluator. Evaluators must be either qualified in the position being evaluated or supervise the Trainee; Final Evaluators must be qualified in the position they are evaluating.

The successful performance must then be properly documented in an approved PTB. The PTB contains all critical tasks that are required to perform the job. The process of demonstrating the abilities to perform the position is the completion of a PTB. The tasks in each NWCG PTB have been established by subject matter experts from all NWCG agencies and geographical areas of the United States, and tested and approved by the NWCG.

NWCG PTBs must be used for wildland fire, incident support, and associated activities position categories. For positions in the ICS category that do not have tasks specific to wildland fire, other all-hazards PTBs may be used as per agency direction. Positions in the ICS category that do have tasks specific to wildland fire must utilize the NWCG task book.

Position task books are formatted to allow documentation of a Trainee's ability to perform each task. Tasks pertaining to tactical decision-making and safety require position performance on a wildland fire. Remaining tasks may be evaluated through other means such as simulation or performance on an emergency or nonemergency incident/event.

The basis for recommending agency certification is successful completion of all required tasks of the position, as determined by the Evaluator(s) and Final Evaluator. Certification and documentation of completed PTBs is the responsibility of the Certifying Official from the home unit/agency (this includes the employing agency when applicable).

Individuals are responsible for providing proof of qualification on an incident.

## CERTIFICATION AND RECERTIFICATION

Agency certification and documentation of completion of the PTB is the responsibility of the employing agency. This certification indicates the individual is qualified to perform in a specific position.

Each agency is responsible for annually certifying qualifications of its personnel based upon the requirements of this guide and agency-specific requirements supplementing this guide. This responsibility includes evaluation of personnel for recertification in cases where position qualifications are no longer valid due to a lack of current experience.

Successful completion of position tasks and training courses does not guarantee an individual will be qualified to perform in a position. Certification and recertification is a subjective determination each individual agency must make based on task evaluations, position performance evaluations, and their own judgment of the quality of an individual's experience.

The quality of experience should be closely evaluated when making a determination for advancement to the next higher position, to a different position, or for recertification. The quality of experience may relate to the variety of fuel types in which an individual has performed, the size and complexity of the incident or event in terms of personnel, equipment, and operations, and the number of assignments.

Although agency personnel can sign tasks in PTBs as an Evaluator and/or Final Evaluator (which includes recommending a Trainee for certification where appropriate), agency personnel cannot function in the role of the Certifying Official for contractors—except where formal agreements are in place. Clauses in contracts are to include stipulations that specify the service provider must meet the standards found in this guide.

Casual or emergency workers must meet the hiring or certifying agency’s requirements.

## **POSITION QUALIFICATIONS**

### **Required Training**

Required training provides a direct link between training and job performance to provide for responder health and safe operations on wildland fires. Required training cannot be challenged except for the following conditions:

1. Structural firefighters may use the Skills Crosswalk for qualification in FFT2, FFT1, ENGB and/or STEN. Those using the Crosswalk must use the identified gap course material (G-131, G-231, G-330) and obtain appropriate course certificates. Refer to the Crosswalk for Structural and Wildland Firefighters section of the PMS 310-1 for further guidance.
2. Agencies may establish processes for approving and documenting course equivalencies to required NWCG training by following the “NWCG Course Equivalency Guidelines” in the Field Manager’s Course Guide, PMS 901-1.

Position task books can be initiated before attendance and successful completion of required training. However, Trainees cannot become fully qualified for the position until required training has been successfully completed. A Trainee must be qualified in the prerequisite position(s) before a PTB can be initiated.

Agency-equivalent courses and courses that are interchangeable as identified by the NWCG Operations and Training Committee may be substituted for required courses. For information on interchangeable courses and course equivalency guidelines see the *Field Manager’s Course Guide*, PMS 901-1 at <https://www.nwcg.gov/publications/901-1>.

### **Recurrent Training**

In order to maintain currency, some positions have identified recurrent training (RT) at various intervals. For more information, consult the *Field Manager’s Course Guide*, PMS 901-1.

### **Required Experience**

Required experience includes qualification in any prerequisite position and completion of the PTB. Required experience cannot be challenged except for the following conditions:

1. Agencies may establish processes for approving and documenting equivalent experience following these principles:
  - a. Documentation supporting “Required Experience” must show a direct relationship to the competencies, behaviors and tasks relative to the specific NWCG qualification.
  - b. Documentation supporting “Required Experience” should be verifiable and be current enough to reflect the individual’s capability.
  - c. Documentation supporting “Required Experience” may come from within or from outside of the respective agency.

## **Physical Fitness Levels**

Personnel must meet established physical fitness levels for wildland fire assignments. Agencies may determine the method of evaluating the physical fitness level of their personnel. However, the testing method should be a measurable evaluation process.

Four levels of physical fitness have been established.

### ***Arduous***

Arduous – Duties involve fieldwork requiring physical performance calling for above-average endurance and superior conditioning. These duties may include an occasional demand for extraordinarily strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Requirements include running, walking, climbing, jumping, twisting, bending, and lifting more than 50 pounds; the pace of work typically is set by the emergency situation.

### ***Moderate***

Moderate – Duties involve fieldwork requiring complete control of all physical faculties and may include considerable walking over irregular ground, standing for long periods of time, lifting 25 to 50 pounds, climbing, bending, stooping, squatting, twisting, and reaching. Occasional demands may be required for moderately strenuous activities in emergencies over long periods. Individuals usually set their own work pace.

### ***Light***

Light – Duties mainly involve office-type work with occasional field activity characterized by light physical exertion requiring basic good health. Activities may include climbing stairs, standing, operating a vehicle, and long hours of work, as well as some bending, stooping, or light lifting. Individuals can usually govern the extent and pace of their physical activity.

### ***None Required***

None required – Positions that do not require a physical fitness level.

For any position assigned to the fireline for nonsuppression tasks, the required physical fitness level shall be “light.”

## **Currency Requirements**

For the positions identified in this guide, the maximum time allowed for maintaining currency is 3 years for air operations, faller, and dispatch positions. All other positions have a 5-year currency requirement.

Currency for a position can be maintained by successful performance within the given timeframes in that position or successful performance as a Trainee or Qualified in positions identified in this guide.

## **Other Training Which Supports Development of Knowledge and Skills**

Personnel are not required to complete NWCG courses referenced under “Other Training Which Supports Development of Knowledge and Skills” in order to qualify for an NWCG position—unless specific agency policy dictates otherwise.

Personnel may learn skills from other sources (structural fire, law enforcement, search and rescue, or other agency-specific training programs), rather than through actual performance on a wildland fire or in NWCG curricula.

Although training referenced here is not “required,” the training provided in the identified courses or job aids, or knowledge and skills acquired through on-the-job training, work experience, or training determined by one’s agency, is a primary means by which personnel can prepare for position performance evaluation by obtaining specific knowledge and skills required to perform tasks identified in the PTB.

For more information on training courses, Job Aids, curriculum history, and course revision schedule refer to the NWCG Training and Qualifications website at (<https://training.nwcg.gov/>). The *Field Manager's Course Guide*, PMS 901-1 is the authoritative reference for all courses within the NWCG curriculum.

## **NWCG DIRECTIVES**

### **Skills Crosswalk for Structural Firefighters**

The NWCG/USFA Skills Crosswalk Guidance outlines a method by which structural firefighters, meeting the NFPA 1001 and 1021 standards, can incorporate their existing fire suppression knowledge and skills towards qualification in three NWCG wildland fire positions (Firefighter Type 1, Single Resource Engine Boss and Strike Team Leader). The Crosswalk reduces the number of required training hours needed to obtain qualification. The use of NWCG Gap courses and position task books (PTBs) are the primary means by which the Crosswalk is implemented.

The updated Crosswalk Guidance is posted on the US Fire Administration website at <https://www.usfa.fema.gov/training/other/>. The Gap course outlines can be referenced in the NWCG Field Manager’s Course Guide at <https://www.nwcg.gov/publications/901-1>.

## **WILDFIRE INCIDENT COMPLEXITY**

The agency administrator or designated representative must determine the complexity of an incident and assign qualified personnel as needed. In situations where multiple agencies and jurisdictions are involved, the determination of complexity and qualifications should be made jointly.

There are many factors that determine incident complexity, including size, location, threat to life and property, political sensitivity, organizational complexity, jurisdictional boundaries, values to be protected, fuel type, topography, agency policy, and other factors. For more specific guidance on determining types of complexity, refer to the *Wildland Fire Incident Management Field Guide*, PMS 210-1, (<https://www.nwcg.gov/publications/210>) and the *Incident Response Pocket Guide*, PMS 461 (<https://www.nwcg.gov/publications/461>).

## **PRESCRIBED FIRE COMPLEXITY**

Agencies can develop their own specific prescribed fire complexity determination procedures. The *Prescribed Fire Complexity Rating System Guide*, PMS 424, (<https://www.nwcg.gov/publications/424>) is an aid for use in this process.

## **NATIONALLY MOBILIZED AREA COMMAND, TYPE 1 AND TYPE 2 INCIDENT MANAGEMENT TEAMS**

To become eligible for participation on an Area Command Team, any person filling a team position as Area Commander (ACDR), Assistant Area Commander, Logistics (ACLC), Assistant Area Commander, Planning (ACPC), or Area Command Aviation Coordinator (ACAC) must successfully complete Area Command (S-620).

To become eligible for participation on a National Type 1 Incident Management Team, any person filling a team position as the Incident Commander, Safety Officer, Information Officer, or General Staff must successfully complete Advanced Incident Management (S-520) or Complex Incident Management Course (CIMC) as per agency direction.

To become eligible for participation on a Type 2 Incident Management Team, any person filling a team position as the Incident Commander, Safety Officer, Information Officer, or General Staff must successfully complete Command and General Staff (S-420) or Advanced Leadership for Command and General Staff (L-481).

An individual having successfully completed the S-420, L-481, S-520 or CIMC, or S-620 course does not need to reattend for the purpose of changing functions on a team at the appropriate level—such changes will be governed by meeting the requirements of the applicable PTB and receiving agency certification.

## **REVIEW AND UPDATE PROCESS FOR THE PMS 310-1 AND POSITION TASK BOOKS**

### **PMS 310-1**

A formal revision of the PMS 310-1 will occur annually. However, the Operations and Training Committee (OTC) may review proposals, address issues, and make changes at any time as needs dictate. NWCG members may be requested to review and provide input for the proposed revision before the revision is adopted by NWCG.

#### **Revision Process**

1. Proposed changes, including requests for new positions to the PMS 310-1 will be identified as an attachment to the Request for Change form available online at <https://www.nwcg.gov/otc-request-for-change-instructions-and-form>.
2. Required information includes reason for the change, national mobilization statistics demonstrating position need and use, a draft PTB (if appropriate), and any specific transition or implementation plan information for individuals currently residing in the Incident Qualification and Certification System (IQCS) and the Incident Qualification System (IQS).

3. The package will be reviewed by OTC and vetted through other committees to assess any impacts and gain approval.
4. If the proposed change is approved, the requesting party will be notified through official correspondence of the acceptance and the timeframe for implementation.
5. Updates to the PMS 310-1 will be made in IQS and IQCS on an annual basis. Exceptions are critical health and safety issues that need to be addressed immediately.

## **Position Task Books**

When a new or revised PTB is published, current Trainees with an initiated PTB (including those individuals re-initiating or re-certifying) and at least one documented experience should continue to use their current PTB. Individuals with no tasks completed will use the new or revised PTB. Currently qualified individuals will not be affected by the transition to new or revised PTBs.

Comments and proposals on PTBs and the qualification process must be submitted through one of the avenues identified on the Request for Change form.

The OTC may review PTB and qualification proposals and address issues at any time. The OTC will consult with NWCG committees and subject matter experts as appropriate, and recommend adoption or rejection by the NWCG.

Position task books, which may be developed for positions not identified within the PMS 310-1, must be submitted to the OTC for review and approval as NWCG positions.

Information on updates to the PMS 310-1, decisions affecting new positions, changes in qualifications, and new, revised, and approved PTBs are available at <https://www.nwcg.gov/publications/position-taskbooks>.

Archived

# POSITION TASK BOOK DESIGN AND USE

Position task books are designed primarily for the evaluation of individual performance or as a checklist for recertification, but they may also be used as a basis for on-the-job training.

## Position Task Book Initiation

A Trainee must be qualified in any prerequisite position before the next level PTB can be initiated. A Trainee cannot be assigned to an incident unless they are designated as a Trainee on their Incident Qualification Card or other agency proof of certification.

## Position Task Book Completion Timeframes

As of the publication date, the standards established in this edition of PMS 310-1 will be met by all participating agencies. Individuals who have begun the process of qualifying for a position under previous editions can continue to use those standards as long as they complete the process before the expiration deadlines as noted below.

Any individual who has begun the evaluation process need not take any newly required course(s) for that position. Additionally, personnel who are qualified in a position before the implementation of this revision may retain certification at the discretion of their agency. To qualify in any other position, the individual must meet the standards identified herein.

Position task books have a limited time in which they can be completed:

A PTB is valid for 3 years from the day it is initiated. Upon documentation of the first task in the PTB, the 3-year time limit is reset from that date.

If the PTB is not completed in 3 years from the date of the PTB initiation (or first task being evaluated), the PTB will expire. A new PTB may be initiated. Prior experience documented in the expired PTB may be taken into account in completion of the new PTB at the discretion of the Certifying Official. All current qualification standards identified in this document must be applied at the time of the new PTB initiation.

## Position Task Book Sections

Accurate completion of PTBs is important to the qualification process. The introductory information in each PTB provides a brief description of how the PTB is to be used.

### *Front Cover*

The “front cover” page includes the title of the position(s) and, if applicable, states that a wildfire or prescribed fire assignment is required before certification.

The cover also contains a block that includes information about the individual (Trainee), the person initiating the PTB, and the date it was initiated. The home unit/agency or Incident Training Specialist (TNSP)—with approval from the home unit/agency—will enter this information.

## *Verification/Certification*

The “verification/certification” page provides a record of the Final Evaluator’s recommendation and agency certification. The Final Evaluator will complete the verification section recommending certification and the Certifying Official at the home unit/agency, when appropriate, will complete the certification.

## *Qualification Record*

The left column contains a list of tasks that must be performed. If a specific standard (quality or quantity) is required, it will be specified in the task. Tasks within the PTB are numbered sequentially; however, the numbering does **not** indicate the order in which the tasks need to be performed or evaluated.

The bullets under each numbered task are examples or indicators of items or actions related to the task. The purpose of the bullets is to assist the Evaluator in evaluating the Trainee; the bullets are not all-inclusive. Evaluate and initial **only** the tasks. **Do not** evaluate and initial each individual bullet.

The column labeled “CODE” contains a code that specifies the type of situation in which the task must be completed.

Tasks labeled with an “O” can be completed in any situation (classroom simulation, daily job, incident, prescribed fire, etc.) Assignment to an incident is not required.

For example, an administrative officer, as a part of their regular job, may perform many of the tasks associated with a finance/administrative position for which they have been identified as a Trainee. In this case, an Evaluator may observe and document performance of the “O” task in the regular job setting.

Tasks labeled with an “I” (incident) must be performed on an incident that is managed under the ICS. Types of incidents include wildland fire, structural fire, search and rescue, hazardous material, oil spill, or an emergency or nonemergency (planned or unplanned) event.

Tasks labeled “W” (wildfire) must be performed on a wildfire incident.

Tasks labeled “RX” (prescribed fire) must be performed on a prescribed fire incident.

Tasks labeled “W/RX” (wildfire/prescribed fire) must be performed on a wildfire **or** prescribed fire incident.

Tasks labeled “R” (rare event) such as accidents, injuries, or vehicle or aircraft crashes occur infrequently, and opportunities to evaluate performance in a real setting are limited. The Evaluator should determine, through interview, if the Trainee would be able to perform the task in a real situation.

The column labeled “Evaluation Record #” refers to the numbered evaluation records at the end of the PTB. Each Evaluator will complete an Evaluation Record and enter the number of that record to reference completed tasks.

The column on the right labeled “Evaluator” provides space for the Evaluator to initial and date when the task is completed. All tasks must be completed, initialed, and dated before the Trainee can be recommended for certification in the position.

## ***Evaluation Record***

The “Evaluation Record” (two pages at the end of the PTB) is for recording information about the type and complexity of the incident on which the evaluation was made and the recommendations of the Evaluator. Additional copies of the Evaluation Record can be downloaded at <https://www.nwccg.gov/publications/position-taskbooks>.

## **Position Task Book Responsibilities**

Documentation of training, experience, and the qualification process is the responsibility of the home unit/agency. Documentation of training, experience, and the qualification process for contractors and their employees is the responsibility of the contractor, except where formal agreements are in place.

### ***Home Unit/Agency***

The home unit/agency is the designated agency that employs the individual. This could be at the local, state, regional, or national level. The Certifying Official from the home unit/agency has administrative authorization to manage the qualification system for that home unit/agency (see Certifying Official).

It is the responsibility of the home unit/agency to:

- Select Trainees, based upon the needs of the home unit/agency and agreements with cooperators.

- Ensure individuals selected as Trainees are qualified in any prerequisite position.

Example: A Trainee selected for the position of Crew Boss Single Resource (CRWB) must have documented, satisfactory performance as a Firefighter Type 1 (FFT1).

Initiate and explain the purpose and proper use of the PTB, and the training, qualification, and certification process. Position task books can only be initiated by either the home unit/agency or a Training Specialist on an incident (with approval from the home unit/agency).

Ensure the Trainee has the opportunity to acquire the knowledge and skills necessary to perform the position. This includes completion of required training courses and on-the-job training assignments.

Provide opportunities for non-incident (“O”) task evaluation.

Track the progress of the Trainee.

Ensure that the Trainee successfully completes any required training before being certified by the Certifying Official.

Issue proof of certification as required by PMS 310-1. This proof is normally an incident qualification card.

### ***Trainee***

The Trainee is the individual, approved by their agency, who is preparing to qualify for a position. The Trainee is eligible for formal, on-the-job training.

It is the responsibility of the Trainee to:

- Review and understand the instructions in the PTB.

- Meet with the Evaluator and/or Coach and identify desired goals and objectives for an assignment.

Ensure readiness to perform the tasks of the position before undertaking a position performance assignment. This includes acquiring the knowledge and skills needed to perform the job tasks. On-the-job training assignments may assist in acquiring knowledge and skills.

Provide background information (training and experience) to the Evaluator and/or Coach.

Complete the PTB within the 3-year time limit. If the PTB is not completed in 3 years from the date of the PTB initiation (or first task being evaluated), the PTB will no longer be valid. A new PTB may be initiated, but all current qualification standards will then apply.

Ensure an Evaluator completes the Evaluation Record, initials completed tasks, and enters a number in the Evaluation Record # column.

Provide a copy of the completed PTB to the home unit/agency.

Retain the original PTB. This is extremely important, as the PTB is the only record of task performance. A lost or destroyed PTB may require additional position performance assignments.

Successfully complete any required training before being recommended for certification by a Final Evaluator.

Provide proof of qualifications on an incident.

### ***Coach***

The Coach provides instruction to a Trainee. This may be in the classroom, on-the-job, or on an incident. While many of the requirements of the Coach are similar to those of an Evaluator, the roles of coaching and evaluating must remain separate.

For example, a Coach may instruct a Trainee in pump operation tasks. When the Trainee appears to have mastered the tasks, the Coach can become the Evaluator and observe and record performance of the task. It is similar to instructing in the classroom and administering a test. The two functions are separate. They can be performed in sequence, but not at the same time.

It is the responsibility of the Coach to:

Be qualified in the position or supervise the Trainee.

Meet with the Trainee and determine their past experience and training, current qualifications, desired goals, and objectives of the assignment.

**Note:** If a Coach determines that the Trainee does not meet the prerequisite required experience or does not have the knowledge and skills to perform the tasks of the position, then the position performance assignment must not continue. The Coach can provide on-the-job training and then recommend a position performance assignment at a later time during the same incident.

Review the tasks in the PTB with the Trainee and explain the procedures that will be used in the training assignment and the objectives that should be met during the assignment.

Reach agreement with the Trainee on the specific tasks that can be performed during the assignment.

Document training assignment according to home unit/agency procedures..

## ***Training Specialist***

The Training Specialist can be an individual from the home unit/agency who is responsible for training and qualifications, or an NWCG qualified Incident Training Specialist (TNSP) on an incident/event.

It is the responsibility of the Training Specialist to:

Meet with the Trainee and determine the type of assignment necessary (position performance assignment or on-the-job training). Consider the Trainee's past experience and training, current qualifications, desired goals, and objectives of the assignment.

**Note:** If the Trainee does not meet the prerequisite required experience for the position or does not have the knowledge and skills to perform the tasks of the position, then the position performance assignment must not continue. If the individual meets the prerequisites but does not have the necessary knowledge and skills, it may be possible to provide on-the-job training and reinstate the performance assignment at a later time during the same incident.

Identify opportunities for on-the-job training and position performance assignments that meet the Trainee's needs and objectives.

Work with the home unit/agency or appropriate personnel on the incident to identify and assign qualified Evaluators.

Initiate a PTB **only** after obtaining approval from the Trainee's home unit/agency.

Document all on-the-job training and position performance assignments.

Conduct periodic progress reviews to ensure assignments are proceeding as planned.

Conduct a closeout interview with the Trainee and Evaluator to ensure that the PTB has been properly completed.

Provide the NWCG Training Branch with feedback regarding training and qualifications issues related to Trainees, such as lack of basic knowledge of the job/position as a result of the NWCG training course they recently participated in as a prerequisite for their Trainee position. Provide this feedback by filling out an Evaluation form at <https://www.nwcg.gov/course-evaluation-feedback>.

## ***Evaluator***

The Evaluator is the person who actually observes the task(s) being performed and documents successful performance in the PTB. The Evaluator and the Coach may be the same person; however, the functions of coaching and evaluating must remain separate (see Coach).

It is the responsibility of the Evaluator to:

Be qualified in the position being evaluated or supervise the Trainee. If the Evaluator supervises the Trainee, but is not qualified in the position, the Evaluator can sign off on tasks, but cannot function as the Final Evaluator.

Meet with the Trainee and determine past experience and training, current qualifications, desired goals and objectives of the assignment.

**Note:** If an Evaluator determines the Trainee does not meet the prerequisite required experience or does not have the knowledge and skills to perform the tasks of the position, then the position performance assignment must not continue. At the discretion of the Evaluator, and if the individual meets the prerequisite required experience, it may be possible to provide on-the-job training and reinstate the Trainee into the position performance assignment at a later time during the same incident.

Review the tasks in the PTB with the Trainee and explain the procedures that will be used in the evaluation and the objectives that should be met during the assignment.

Reach agreement with the Trainee on the specific tasks that can be performed and evaluated during the assignment.

Accurately evaluate and record the demonstrated performance of tasks. This is the Evaluator's most important responsibility; it provides for the integrity of the performance-based qualification system.

Complete the appropriate Evaluation Record in the back of the PTB. If more than one position performance assignment is necessary, the Evaluator will complete an Evaluation Record for each assignment.

### ***Final Evaluator***

Although Evaluators must be either qualified (meaning qualified with currency) in the position being evaluated or supervise the Trainee, a Final Evaluator must be qualified in the Trainee position they are evaluating.

Only the Evaluator on the final position performance assignment (the assignment in which all remaining tasks have been evaluated and initialed) will complete the Final Evaluator's Verification statement inside the front cover of the PTB recommending certification.

### ***Certifying Official***

The Certifying Official from the home unit/agency must review and confirm the completion of the PTB and make a determination of agency certification. This determination should be based on the Trainee's demonstration of position competencies and behaviors, as well as the completed PTB—which includes a Final Evaluator's Verification. Only the Certifying Official from the home unit/agency has the authority to certify an individual's qualifications.

# **POSITION TASK BOOK CONSIDERATIONS AND EXCEPTIONS**

## **Positions Without NWCG Position Task Books**

Individuals in the following positions perform tasks that vary depending on the agency, the assignment, or both. Assignment and qualification will be determined by the agency.

- Agency Representative (AREP)
- Interagency Resource Representative (IARR)
- Mixmaster (MXMS)
- Operations Branch Director (OPBD)
- Retardant Crewmember (RTCM)
- Service Branch Director (SVBD)
- Support Branch Director (SUBD)

## **Positions With the Same Position Task Book for Type 2 and Type 1 Complexity Levels**

- Finance/Administration Section Chief Type 2 & Type 1 (FSC2 and FSC1)
- Incident Commander Type 2 & Type 1 (ICT2 and ICT1)
- Logistics Section Chief Type 2 & Type 1 (LSC2 and LSC1)
- Operations Section Chief Type 2 & Type 1 (OSC2 and OSC1)
- Planning Section Chief Type 2 & Type 1 (PSC2 and PSC1)
- Prescribed Fire Burn Boss Type 2 & Type 1 (RXP2 and RXP1)
- Prescribed Fire Manager Type 2 & Type 1 (RXM2 and RXM1)
- Public Information Officer Type 2 & Type 1 (PIO2 and PIO1)
- Safety Officer Type 2 & Type 1 (SOF2 and SOF1)

For positions with the same PTB, Trainees are required to complete an initiated PTB for each complexity level. When the PTB is initiated, the applicable level should be identified by crossing out the nonapplicable position identifiers on the PTB cover.

Example: A Trainee completes a PTB for Incident Commander Type 2 (ICT2) and receives certification from the home unit/agency in that position. When the home unit/agency determines the individual has demonstrated satisfactory position performance as an ICT2, a new Incident Commander Type 2 and Type 1 (ICT2 & 1) PTB may be initiated for ICT1. Crossing out ICT2 on the cover indicates the Trainee is working to complete the ICT1 PTB.

## **Positions With Combined Position Task Books**

Some NWCG PTBs have been combined; however, the positions have not been combined. For additional information, refer to Individual Position Qualification pages in this document or the PTB.

These PTBs have been combined to include common tasks—with additional tasks for specific positions as referenced. The common tasks only need to be completed once. When the PTB is initiated, the applicable position(s) should be identified by crossing out the nonapplicable positions on the cover. For each subsequent position, a new “front cover initiation” page and a new “verification/certification” page must be printed and initiated (with the applicable position being identified by crossing out the nonapplicable positions on the cover).

## Combined Position Task Books With Common Tasks:

1. Firefighter Type 1 (FFT1) and Incident Commander Type 5 (ICT5). The FFT1 tasks only need to be completed once; the additional tasks specific to ICT5 must be completed to obtain ICT5 qualification. The FFT1 and ICT5 PTBs can be initiated at the same time; the tasks can be completed simultaneously. A “verification/certification” page is included in the PTB for each position.
2. Basic Faller, Intermediate Faller, and Advanced Faller (FAL3, FAL2, and FAL1). Position-specific tasks and position certification for each position must be completed in the order of FAL3, FAL2, and then FAL1. A verification/certification page is included in the PTB for each position.
3. Single Resource Boss (CRWB, HEQB, ENGB, FELB, FIRB, and HMGB)
4. Strike Team Leader (STCR, STEN, STEQ) and Task Force Leader (TFLD). For qualification as a Strike Team Leader, the specific Strike Team Leader PTB must be initiated (with the applicable position being identified by crossing out the nonapplicable positions on the cover). The Strike Team Leader tasks only need to be completed once. Once qualified as a Strike Team Leader, any additional Single Resource Boss qualifications will allow agencies to qualify the individual in the corresponding Strike Team Leader position. An additional PTB for that position does not need to be completed. Certification must be documented on a “verification/certification” page.

Once qualified as a Strike Team Leader, to become a TFLD, a new “front cover” page and a new “verification/certification” page must be printed and initiated (with the applicable position being identified by crossing out the nonapplicable positions on the cover), and the additional tasks in the PTB for TFLD must be completed.

For an individual using the TFLD alternate pathway of two Single Resource Boss + ICT4 versus going through STL, a TFLD PTB must be initiated (with the applicable position being identified by crossing out the nonapplicable positions on the cover) and all tasks in the PTB must be accomplished and evaluated.

**Note:** If a TFLD meets the prerequisite experience and qualifications of a STL, the appropriate STL qualification may be granted by the certifying official. Certification must be documented on a “verification/certification” page.

5. Helicopter Coordinator and Air Tactical Group Supervisor (HLCO and ATGS).
6. Fire Behavior Analyst (FBAN) and Long Term Fire Analyst (LTAN). For qualification as a FBAN, the PTB should be initiated (with the FBAN position being identified by crossing out LTAN on the cover). The FBAN tasks only need to be completed once.

Once qualified as FBAN, to become a LTAN, a new “front cover” page and a new “verification/certification” page must be printed and initiated (with the LTAN position being identified by crossing out the FBAN positions on the cover), and the additional tasks in the PTB for LTAN must be completed.

For qualification as an LTAN (without prior FBAN qualification), the PTB indicating LTAN will be initiated, and all tasks in the PTB must be accomplished and evaluated.

**Note:** If an LTAN meets the prerequisite experience and qualifications of an FBAN, the FBAN qualification may be granted by the certifying official. Certification must be documented on a “verification/certification” page.

7. Fire Effects Monitor (FEMO) and Field Observer (FOBS). The common tasks for both positions are listed first. The tasks specific to FEMO and then FOBS follow the common tasks. The FEMO and FOBS PTBs can be initiated at the same time; the tasks can be completed simultaneously. A Verification/Certification page is included in the PTB for each position.
8. Resources Unit Leader, Situation Unit Leader, and Demobilization Unit Leader (RESL, SITL, and DMOB). The RESL and DMOB PTBs cannot be initiated at the same time; the required experience for RESL must be completed before the DMOB PTB can be initiated. A new “verification/certification” page should be used for each position.
9. Facilities Unit Leader, Communications Unit Leader, Food Unit Leader, Ground Support Unit Leader, Medical Unit Leader, and Supply Unit Leader (FACL, COML, FDUL, GSUL, MEDL, and SPUL)
10. Compensation/Claims Unit Leader, Procurement Unit Leader, and Time Unit Leader (COMP, PROC, and TIME)
11. Personnel Time Recorder, Equipment Time Recorder, and Commissary Manager (PTRC, EQTR, and CMSY)

Position Task Book Exceptions:

**Safety Officer Type 2 (SOF2) and Safety Officer Line (SOFL)**

Once qualified as a SOF2, the SOFR qualification may be granted by the certifying official. Certification must be documented on a “verification/certification” page of the SOFR PTB.

**Basic Faller, Intermediate Faller, and Advanced Faller (FAL3, FAL2, and FAL1).** The use of the approved NWCG combined PTB for these positions is highly encouraged. However, in the case of FAL3, FAL2, and FAL1 agency-specific processes that evaluate and document Completion and Certification of PTB can be used if they meet or exceed the standard identified in the associated PTB.

## POSITION CATEGORIES

### Criteria for Position Consideration in the PMS 310-1

The following criteria must be met for a position to be considered for inclusion in the PMS 310-1, as determined by OTC:

1. The position supports the NWCG mission and is needed for national mobilization;
2. The position is interagency in scope and is supported by the interagency community;
3. The proposed position has been submitted by an NWCG member agency, Geographic Area Coordinating Group, or NWCG committee;
4. A demonstrated recurring need for standardized position qualification requirements has been identified;
5. No other position exists that can accomplish these tasks; and,
6. The primary position qualifications are not addressed or supported by industry standards and training.

Requests for position consideration in the PMS 310-1 will include the following:

1. Completed Request for Change form.
2. Information identifying the need for position standardization.
3. Draft position standards and draft task book.
4. Draft transition plan for position implementation in IQS and IQCS.
5. National mobilization statistics demonstrating position need and use.
6. Training development and maintenance plan, if applicable.

There are five position categories recognized by NWCG:

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities
5. Technical Specialists

The OTC has established and approved qualifications and PTBs for the following four position categories:

1. Incident Command System (ICS)
2. Wildland Fire
3. Incident Support
4. Associated Activities

### **Technical Specialists**

Technical Specialists are personnel with specialized skills gained through educational degree programs or industry training of established standards. These personnel may perform the same duties during an incident that they perform in their regular job and may have supplemental training in order to use their specialized skills in the incident environment.

Although position codes have been assigned to Technical Specialist positions that can be used within the ICS, no minimum qualifications have been established by NWCG. Standards for Technical Specialist qualifications are Agency determined. Contact your agency OTC representative for further information.

Federal agencies have consolidated minimum standards and information for frequently used positions not included in this guide. A link to the *Federal Wildland Fire Qualifications Supplement* is located at <https://www.nwcg.gov/sites/default/files/publications/federal-wildland-fire-qualifications-supplement.pdf>. For titles and position codes of identified Technical Specialists, see the IQCS website at <https://iqcsweb.nwcg.gov/>.

## **Incident Command System Positions**

In the ICS, the organizational chart is recognized by NWCG for use on wildland fires and for response to all-hazard incidents. This category includes ICS positions approved under the NIMS.

Positions with an \* have agency-established qualifications and no NWCG PTB.

# Position Qualification Flowcharts

The flowcharts shown on the following pages *are not* Incident Command System (ICS) chain of command organization charts.

The position qualification flowcharts presented in this section show the progression from one wildland fire position to another within the Wildland Fire Qualification System. (For detailed information about a specific position, refer to the qualification page for that position, which is located in the Qualifications section of this document).

Below is an example of a position and its requirements as shown on the qualification flowchart. The example shows the position title, position code, and the required experience (Qualified As), required training, and fitness level required for a Trainee to qualify for that position.

Note: Prerequisite positions outlined in the flowcharts are in addition to the PTB requirement for each position.

# Area Command

This is not an ICS chain of command organization chart.

*PSC1= \*Individuals must complete the Planning Section Chief Course (S-440) prior to position qualification.  
LSC1= \*Individuals must complete the Logistics Section Chief Course (E/L967) prior to position qualification.*

# Command

This is not an ICS chain of command organization chart.

PIO1 and PIO2 = \*Individuals must complete the Public Information Officer Course (E/L952) prior to position qualification.

# Prescribed Fire

This is not an ICS chain of command organization chart.

# Operations

This is not an ICS chain of command organization chart.

# Air Operations

This is not an ICS chain of command organization chart.

# Planning

This is not an ICS chain of command organization chart.

*\*Individuals utilizing this pathway must complete the Planning Section Chief Course (S-440) prior to position qualification.*

# Logistics

This is not an ICS chain of command organization chart.

*\*Individuals utilizing this pathway must complete the Logistics Section Chief Course (E/L967) prior to position qualification.*

# Finance/Administration

This is not an ICS chain of command organization chart.

# Dispatch

This is not an ICS chain of command organization chart.

# Prevention and Investigation

This is not an ICS chain of command organization chart.

The *National Incident Management System: Wildland Fire Qualifications System Guide* is developed and maintained by the Operations and Training Committee (OTC), an entity of the National Wildfire Coordinating Group (NWCG).

Previous editions: 2017, 2016, 2015, 2014, 2013, 2012, 2011, 2010, 2009, 2008.

While they may still contain current or useful information, previous editions are obsolete. The user of this information is responsible for confirming that they have the most up-to-date version. NWCG is the sole source for the publication.

This product is available electronically at <https://www.nwcg.gov/publications/310-1>.

The Operations and Training Committee will review and publish the *National Incident Management System: Wildland Fire Qualifications System Guide* annually. Change recommendations shall be submitted to the appropriate agency program manager assigned membership to OTC.
