## I. INTRODUCTION

This National Interagency Buying Team (BT) Guide contains standard operating procedures and forms recommended for use by BTs. This Guide contains supplemental material to the:

Interagency Incident Business Management Handbook, NWCG Handbook 2, National Interagency Mobilization Guide, Agency Acquisition Handbooks and Guides. (e.g., agency purchase card procedures).

If contradictions occur, the Incident Business Management Handbook and the Mobilization Guide take precedence. Buying Teams should be thoroughly familiar with all chapters of the Incident Business Management Handbook.

## II. ORGANIZATION, QUALIFICATIONS AND TRAINING

### A. Organization

Buying Team qualifications and composition are addressed in the following documents:

Responsibilities: Interagency Incident Business Management Handbook, Chapter 20, Section 20.04

Coordination: Interagency Incident Business Management Handbook, Chapter 40, Section 43

Qualifications: National Interagency Mobilization Guide, Chapter 20, Section 22.10 and Chapter 60, Section 64.1

Buying Teams support incident acquisition through the local administrative staff, procuring a wide range of services and supplies, as well as renting land and equipment.

Each National Interagency Buying Team has seven people consisting of a leader, and six team members. One of the six members may be assigned as an assistant or deputy leader. Two members shall have warrant authority. In addition to the seven-member team, personnel from the incident agency or alternate buying team members may be added, as needed, to supplement the primary team.

Geographic areas may have additional buying teams for use within the area. Geographic area teams may differ in team composition from the approved National Interagency Buying Team composition. The geographic area determines the composition of Buying Team used internally. Each geographic area shall train and provide a minimum of one Buying Team that is made available for national dispatch (see National Interagency Mobilization Guide, NFES 2092). Buying Teams are ordered by the incident agency and report to the Agency Administrator or other designated personnel. Buying Teams work with the local administrative staff to support the incident acquisition effort.

Buying Teams should **not** be utilized as “defacto” payment teams. Incident agencies should order an Administrative Payment Team if the incident situation warrants.

## **B. Qualifications and Training**

Five Buying Team members will be required to have a Purchase Card and their applicable Agency training.

The following training requirements are mandatory for all Buying Team members, including alternates:

### **1. Required Training.**

S-260, Interagency Incident Business Management  
I-100, Introduction to Incident Command System  
IS-700, National Incident Management System, An Introduction (FS Employees)  
IS-800, National Response Plan, An Introduction (only required for Leaders) (FS Employees)

### **2. Recommended Supplemental Training**

- a. National Interagency Buying Team Workshop, on-the-job procurement training, and micro-purchase authority and maintenance of that authority, and recommended by a Geographic Area Buying Team Coordinator, in addition to:

I-200, Basic Incident Command System  
D-110, Dispatch Recorder

- b. S-261, Applied Interagency Incident Business Management
- c. Incident Procurement Training (NTC 1500-60)
- d. Geographic Area Buying Team Workshops
- e. Geographic Area Incident Finance Meetings
- f. Purchase Card and Convenience Check training

### **3. Annual Review Training Requirements**

- a. Review Interagency Incident Business Management Handbook, Chapters 20, 30, 40, and 60.
- b. Review Geographic Area Supplements, Chapters 20, 30, 40 and 60.

### **4. Additional Recommended Training for Buying Team Leaders and Alternate Leaders**

- a. S-360, Finance/Administration Unit Leader
- b. National Buying Team Leader Meeting or Incident Acquisition Workshop
- c. Geographic Area Incident Procurement/Buying Team Workshop

### **III. MOBILIZATION AND DEMOBILIZATION**

Refer to the National Interagency Mobilization Guide, Chapter 20, Section 22.10.1 and Chapter 60, Section 64.1.2 for mobilization and demobilization guidelines. The general policy is that National Buying Teams from outside of the Geographic Area may be requested after Buying Teams within the Area have been utilized. Local agencies are expected to support small incident needs using Geographic Area resources. Additional Buying Team members may be ordered as needed.

### **IV. BUYING TEAM KIT**

Each Buying Team should have a kit containing the following items when dispatched to an incident. In addition, Buying Team members with warranted acquisition authority should bring a copy of their warrant. Teams should carry or have electronic access to all of the items listed below.

#### **A. Reference Material.**

The Buying Teams should carry or have electronic access to the following reference material:

1. Interagency Incident Business Management Handbook, NWCG Handbook 2, NFES 2160
2. National Interagency Mobilization Guide, NFES 2092
3. NWCG National Fire Equipment System Catalog, Part I, Fire Supplies & Equipment, NFES 0362, Part I & Part II when using order # 0362
4. NWCG National Fire Equipment System Catalog, Part II, Publications, NFES 3362

#### **B. Equipment (Leader's Responsibility)**

The Buying Team Leader should bring the following item to the incident or ensure it is available at the incident:

1. Laptop loaded with the spreadsheets and frequently used forms.

#### **C. Internet/Intranet Website References**

The following websites are provided for reference:

## V. RESPONSIBILITIES

The Buying Team works with the local administrative staff to support the incident acquisition effort. Therefore, Buying Teams should be sensitive to and strive to operate within local policies and procedures. Administrative staff, as used throughout this Guide, means the incident agency Administrative Officer or equivalent.

The responsibilities of each Buying Team member are outlined below. It is essential to establish good communications with all parties involved in supporting incident acquisition activities. All Buying Team members share responsibility in the communication effort. The Fireline Handbook, NFES 0065, provides information on the roles and responsibilities of other incident personnel.

## **A. The Buying Team Leader (BUYL)**

The BUYL coordinates with incident agency personnel and the IMT (Incident Management Team), ensures goods and services are purchased in accordance with incident agency policy, and maintains proper documentation. Buying Teams report the purchase of accountable property to the incident agency. In addition, the BUYL:

1. Contacts the administrative staff immediately upon receiving the resource order, to collect the following information:
  - a. The size and location of incident,
  - b. The size and location of the space available for the Buying Team's use,
  - c. The equipment currently available to the Buying Team,
  - d. If a vehicle has been assigned for Buying Team use,
  - e. Other special problems or concerns (Refer to Exhibit #2, Request for Buying Team information),
  - f. Status of a caterer order.
  - g. Verify if a Government computer, rental vehicle, and cell phone are authorized on the Resource Order.
    - i. Change the default accounting code (job code) in the appropriate purchase card system to the incident accounting code when dispatched to an incident.
2. Sets up the following logistical items immediately upon arriving at the incident:
  - a. Runner/ground support availability for the Buying Team
  - b. Phones and phone lines
  - c. Copier and Fax machine
3. Establishes lines of communication and coordinates Buying Team responsibilities with other incident functions (administrative staff, Dispatch, Finance Section, Logistics Section, and all acquisition personnel involved in the incident acquisition activities). If needed, provide briefings on Buying Team roles and responsibilities to all concerned parties.
4. Coordinates with the Ordering Manager and the local dispatch office on how the Buying Team will receive resource orders. Documents and shares the process with all applicable parties.
5. Reviews and implements the administrative unit's and geographic area's acquisition policies, operating guidelines, service/supply plan, and briefs team members accordingly.
6. Ensures all orders placed are legal and consistent with agency policies. Consults with the IBA (Incident Business Advisor) or Agency Administrator when needed.

7. Establishes operational periods for the team; notifies dispatch and/or the expanded dispatch, incident base, and administrative staff, and/or any other established incident unit.
8. Ensures all documentation is in accordance with the Buying Team operating procedures, and agency procedures and policies. This includes logs, Buying Team spreadsheet, filing systems and delegations of this responsibility to the deputy leader or other members of the Buying Team. Inquire whether duplicate copies of documentation will be required for multi-jurisdictional incidents.
9. Monitors organizational needs and adjusts staffing of personnel as needed. Coordinates mobilization and demobilization of staff with incident Agency Administrative Staff as well as with dispatch and/or expanded dispatch.
10. Cooperatively establishes how orders for supplies and equipment will be handled, with the incident agency, incident team, and the dispatch organization. Ensures orders are coming to the Buying Team in a timely manner. Wherever feasible, obtain agreement between administrative staff, incident, and the expanded dispatch personnel for orders to be sent directly to the Buying Team from incident base, and establish a direct line of communications with the incident for resource order information exchange.
11. Coordinates timely delivery of supplies to the incident and schedules equipment inspections with the Ground Support Unit.
12. Document and record the purchase of property.
13. Provides daily cost information to the designated Finance Section.
14. Provides Finance Section with copies of agreements issued by the Buying Team for cost tracking and administration.
15. Coordinates with the Finance Section who will be tracking what equipment.
16. Prepares the transition report noting close-out concerns.
17. Upon return to the home unit, provides status and availability of the Buying Team to the Geographic Area Coordinating Center (GACC) and National Interagency Coordination Center (NICC).
18. Approves emergency incident time reports (OF-288) of the Buying Team members and other personnel assigned to the Buying Team.

## **B. The Deputy BUYL**

1. Assumes the duties of the Buying Team Leader in their absence.
2. Performs operational acquisition duties. If the deputy has a higher warrant, they complete the more complex acquisitions.

### **C. Buying Team Members (BUYMs)**

1. Change the default accounting code (job code) in the appropriate purchase card system to the incident accounting code (job code) when dispatched to an incident.
2. Place orders and process all related paperwork, including completing waybills and maintaining logs.
3. Audit orders, waybills, and vendor's invoices.
4. Confirm verbally placed purchase orders in writing and in a timely fashion.
5. Keep the BUYL informed of day-to-day actions, including resource order status and any problems.
6. Prepare necessary documents for property, commissary purchases, and acquisition instruments, including Emergency Equipment Rental Agreements (EERAs).
7. Relay the estimated time of departure (ETD) and estimated time of arrival (ETA) for shipments to dispatch and/or expanded dispatch or incident base, whichever is applicable.
8. Document receipts with the resource order number and incident name. File documentation appropriately.
9. Complete and file paperwork on a daily basis.

## **VI. OPERATING PROCEDURES**

### **A. General Roles of the Buying Team**

1. Establishes and maintains good working relationships and lines of communication.
2. Transitions with the incident agency upon arrival. This includes obtaining the status of all resource orders completed and outstanding to date, as well as initiating procedures for the handling of new acquisitions by the Buying Team.
3. Fills resource orders for services, supplies, and equipment in a timely manner. Reviews resource orders for completeness.
4. Checks with the vendor on estimated times of departure and estimated times of arrival for pending orders.
5. Complies with regulations and requirements pertaining to property, which includes obtaining approval when necessary.
6. Provides host unit with new sources and other information.

7. Elevates any questionable orders to the local Administrative Staff or Incident Business Advisor (IBA).

## **B. Resource Orders**

1. Reviews resource orders for completeness of information, descriptions, quantity, etc.
2. Completes all pertinent blocks on the resource order form.
  - a. To/From: Buying Team member initials or name
  - b. Resource Assigned: Vendor Name, Contact name and phone number for services; payment method (if check, include number) additional information should be included here or on the back of the resource order (i.e., ETA of item being shipped).
  - c. ETD/ETA: Purchase date
  - d. Released column: Record release information for equipment or services.
3. Sets up binders to hold resource orders using a separate binder for each incident and a separate binder for equipment and supplies.
4. Sets up status boxes (or folders) for orders, such as “New Orders”, “Pending Further Information”, “Transportation”, “In Transit”, “To Be Posted”, “Standing Orders”, and “Completed”. File completed documentation in the appropriate vendor file folder.
5. Maintains the Buying Team spreadsheet. The spreadsheet template and instructions are located on the Incident Procurement website.

## **C. National Buying Team Filing System**

1. Establish an official Buying Team file system by vendor name for each incident. File completed documentation in alphabetical order by vendor name in file boxes with hanging file folder for each vendor. Make plastic label to attach to the hanging file folder with the vendor name. Successor Buying Teams will use the same file boxes and system as previous Buying Team. These files remain with the incident host agency.
2. Establish separate folders and place in the front of the file box for:
  - a. Property items; include AD-107 or DI-105 and resource order. Use the resource order number and incident name as the tracking number on the AD-107 or DI-105. At transition or closeout a spreadsheet printout of the tracked property shall be included. Refer purchases of accountable property to the local unit procurement staff for acquisition. Discuss with the unit staff what they want tracked and which items will need a property form.

- i. On a FEMA Incident, the following property documentation instructions apply:
  - A. Expendable Property <\$1K, separate identification **not** required
  - B. Non-expendable property or Sensitive items =>\$1K, separate identification **is** required to include description of item, vendor name, unit cost
  - C. Verification of Disposition for items listed in (b.), Property Disposition Form must be included to verify:
    - 1. If Other Federal Agency (OFA) is seeking full reimbursement from FEMA for purchases, the property must be in FEMA's possession.
    - 2. If OFA keeps any of the property purchased, the invoice must reflect a reduction for those items maintained by the OFA.
    - 3. If property is donated to an OFA or other third party, verification of such an agreement must be provided in writing and submitted to FEMA with invoice.
- b. Rental items to be returned or services to be discontinued, by vendor name
- c. Utilities by vendor name, i.e. phone lines, electrical, etc.
- 3. Create the additional file copies if required by the incident host agency.
- 4. Identify and track open/pending orders until the final invoice is paid.
- 5. Establish a file for EERAs awarded by the Buying Team. Include a log with appropriate documentation. Forward copies to the Finance Section.
- 6. Include all documents to support each transaction in the following order,:
  - a. Completed waybill (Exhibit 4)
  - b. Copy of receipt/invoice
  - c. Copy of resource order
  - d. Any other supporting documentation

**D. Blanket Purchase Agreements (BPAs)**

- 1. Establish Incident BPAs in accordance with FAR Part 13 as needed. Use appropriate host agency numbering system.
- 2. Use existing BPAs when requested by incident host agency. BPA order documentation shall be retained in the official vendor file.

## **E. Emergency Equipment Rental Agreements (EERAs)**

1. For equipment awarded using competed EERAs or preseason incident BPAs through VIPR or the competitive solicitation process, the ordering protocol shall be followed.
2. When the equipment under agreement is exhausted, a new acquisition instrument should be prepared and signed by the appropriate, warranted Buying Team member for the length of the incident. A resource order must be received for an EERA to be awarded. All equipment rates will conform to the established equipment rental rates for the geographic area or if established rates do not exist, reasonably priced rates will be negotiated using the available existing established rates as a Government Estimate. Fire chasing should not be rewarded. Contact the IBA or agency administrator to resolve the fire chasing issues.
3. If Contractors are issued an EERA at the Incident, they should be advised as to the designated point of hire and reminded that the EERA is only effective for the duration of the incident. All equipment shall have a pre-use inspection completed by a qualified inspector. The EERA payment package should be sent (with the Contractor) to the Incident Finance Section. The Buying Team shall maintain an EERA log (see Exhibit 16).
4. Maintain a log of all EERA numbers, in numerical order. A block of EERA numbers for use by the Buying Team should be obtained from the local unit. The national format for the host agency should be used.
5. The EERA payment package is contained in an Emergency Equipment Use Envelope (OF-305) and shall include:
  - a. Copy of the EERA
  - b. Copy of the resource order
  - c. Proof of insurance
  - d. Pre-use inspection report
  - e. Initial shift ticket
  - f. Any local required documentation

## **F. Purchase Cards/Checks**

1. Record the resource order number and incident name on each purchase card receipt.
2. Maintain copies of purchase card receipts and/or copies of checks in the vendor files.
3. Reconcile purchase card transactions in the electronic access system for Purchase Cards while on the incident, if possible; otherwise, as soon as cardholder returns home. Reference resource order numbers in electronic access system for Purchase Card. Cardholders may continue to charge their work time to the incident when reconciling incident transactions after returning to their home unit. Cardholders should be aware

that dispute rights with the bank for contesting charges are time sensitive. Follow your agency policy for disputing charges.

4. Report transactions over the micropurchase threshold in FPDS-NG.
5. Capture the 1099 information when issuing convenience checks. (FS - have vendors fill out the W-9 form).

#### **G. Restaurants and Lodging Acquisitions**

1. Check with the administrative staff and local procurement personnel to determine if an acquisition process is established for meals and lodging. If none is established, initiate a process approved by the local unit.
2. Review the established acquisition instruments with meal and lodging vendors to ensure authorization and payment procedures are included.
3. Ensure that persons incurring expenses are authorized and are clearly identified on the bills. Some helpful hints previously relied on by teams include:
  - a. Using a special detailed form which authorizes meals or lodging and includes individual names, crew names, resource order number, etc. (see the Incident Procurement website for a sample form).
  - b. Using Lodging Log Sheets and designating one team member to make all lodging reservations and/or place all the meal orders. Ensure that the vendor accepts reservations/orders only from the designated person.
  - c. At a minimum, an identifiable resource order number and individual name should be provided for every charge. Obtain crew manifests to help facilitate identification of firefighters.
  - d. Keeping the lodging documentation straight from the beginning because once an individual checks out, it is very difficult to obtain information about them. Coordinate with the lodging staff to thoroughly document persons incurring expenses under the acquisition instruments.
  - e. Frequently monitor and pay under the acquisition instrument to resolve unauthorized charges and issues immediately.

#### **H. Potential Ordering Problems**

The following list describes some potential ordering problems:

1. **Tires, Batteries, and Vehicle/Equipment Parts.** The resource order should show: type of vehicle, ownership, model, size, etc. If items are being ordered for a contractor, the Buying Team should send a copy of the invoices showing the contractor's name, acquisition instrument number, resource order number, and request number to the

Finance Section for deduction from the contractor's payment. For WCF vehicles, the incident will only pay for documented damage or destruction resulting from equipment use on the incident. Consult with the ground support unit prior to charging the incident.

2. **Questionable or Unusual Quantities or Types of Items.** Consult with the administrative staff or IBA.
3. **Property.** See the Interagency Incident Business Management Handbook, Chapter 30, Property, for guidance. Completed property transfer documents (AD107 or DI105 and receipt) should be provided to the property officer and a copy should be filed in the vendor files. Refer purchases of accountable property to the local unit procurement staff for acquisition. Discuss with the unit staff what they want tracked and which items will need a property form. Maintain a property list for tracking all equipment and property. Also see the subparagraph below regarding Cache Items. Use a property tag to track property or other items, purchased or rented, which need to be tracked and/or returned.
4. **Computers and Cell Phones. Reference FSM 6640 for cell phones and tracphones (for Forest Service). Check on Verizon SERT Program for availability of free cell phones and satellite phones.** Before purchasing telecommunications equipment for incident use, gain approval from the local agency official responsible for the incident. Any property/sensitive equipment purchased at incidents must be accounted for and returned to caches or disposed of properly at the end of the incident.
5. **Maps.** Consult the administrative staff for source information.
6. **Newspapers.** The Government cannot purchase newspapers for personal use, however, they may be purchased for the Information Officer's display and information sharing. Refer to the local unit's Operating Guidelines before purchasing.
7. **Medical Supplies.** The Buying Team should coordinate with the Medical Unit Leader to explain time constraints when ordering from medical supply vendors and to discuss procedures for obtaining prescriptions. If a prescription is not incident related, a copy of the invoice showing the employee's name is sent to the Finance Section for deduction from the employee's pay.
8. **Cache Items.** The Buying Team should attempt to purchase items matching cache specifications as closely as possible. This will enable their return to the cache system after the incident.

**J. Transportation and Waybills for Supplies**

The following responsibilities and processes are used for supply transportation and waybills:

**1. Buying Team Responsibilities.**

- a. A Buying Team member gives the incident waybill to the runner.
- b. The runner picks up supplies from the vendor, and checks quantities shown on the waybill against quantities actually received. Changes should not be made to waybills without Buying Team approval.
- c. The runner signs the vendor's receipt(s) upon picking up supplies.
- d. The runner returns the receipt(s) and waybill to the Buying Team.
- e. A Buying Team member checks the waybill against the receipt and resolves any discrepancies, and notes the serial numbers if applicable. The Buying Team retains a copy of the waybill, plus the original receipt(s).
- f. The runner gives the supplies and waybill to transportation (if applicable) for loading and transport to the incident.
- g. The Buying Team relays estimated time of arrival to dispatch and/or expanded dispatch for filled resource orders.
- h. Any purchased, borrowed or leased equipment that is taken to the Incident (e.g., copy machines, FAX machines, cameras, tables, chairs, etc.) will need property tracking forms completed. This includes accountable property and local commonly tracked items such as cameras, radios, chainsaws, and generators. The Buying Team ensures property is marked in accordance with incident Agency policies.

**2. Transportation and Receiving and Distribution (R & D) Responsibilities.**

- a. Transportation signs the waybill, records the date and time received on the waybill, and retains a copy.
- b. Upon arrival at the incident, Receiving and Distribution (R&D) should check the quantities and sign the waybill. Any discrepancies should be noted and reported to Transportation and the Buying Team immediately.
- c. The original signed waybill is returned to the Buying Team.

- d. The runner gives the equipment, rental use envelope (with all forms required listed on the envelope), waybill and property transfer form to Transportation for delivery to the incident.

### **3. Logistics Responsibilities.**

The incident Logistics Section should coordinate return of the property with the Buying Team.

### **K. Disposition of Property**

The disposition of property differs among agencies. Caution needs to be taken to ensure disposition is done according to the incident agency's procedures.

The Federal Management Regulations (FMR's) state perishable items (shelf life of less than 6 months) can only be donated to nonprofit organizations or tax supported agencies (Job Corps, Red Cross, public schools, VA hospitals, etc.). Non-perishable items can be retained in local agency fire caches or disposed of through local agency property procedures.

### **L. Agency Provided Commissary**

If Agency commissary services are provided:

1. The Buying Team prepares a separate waybill for commissary items.
2. Copies of invoices are attached to the waybill and sent to the incident base finance chief.
3. The Buying Team ensures that transportation delivers commissary items to the Commissary Manager or the Finance Section Chief, not to the Supply Unit
4. The time of delivery should be coordinated with the Commissary Manager or the Finance Section Chief. The waybill should be signed by the Commissary Manager or the Finance Section Chief and returned to the Buying Team.
5. Buying Team members should not use convenience checks to purchase commissary items.
6. The Commissary Manager or Finance Section Chief should coordinate return of unused inventory with the Buying Team.
7. After the unused inventory is reconciled, the Buying Team should arrange for return of items to the vendor for credit. If the vendor will not accept returns, the unused items should be transferred to the Incident Agency's Administrative Staff.

## **M. Close-out Concerns and Tasks**

The following items should be done before the Buying Team is demobilized and returns home:

1. As work decreases, consider shortening, changing, or merging shifts. Notify dispatch and/or expanded dispatch, the IBA, and the incident base of revised hours of operation.
2. Monitor pending resource requests and cancel outstanding requests as necessary.
3. Monitor the list of standing supply orders (e.g., newspapers). Coordinate cut-off dates with the incident base and notify vendors accordingly.
4. Monitor the list of continuing services. Negotiate cut-off dates and the remaining time services are needed with incident base. Contact vendors.
5. Ensure documentation is complete; making certain copies of all transactions are included in agency file. Review resource order binders for completeness.
6. Document status of all incomplete requests, as well as those with problems, which will remain unresolved at the time of close-out. Documentation should be completed on the resource orders in the binders and on the spreadsheet.
7. Review and release remaining equipment that is no longer needed, such as Buying Team copiers and rental cars.
8. Review and complete all equipment rental folders for equipment managed by the Buying Team and forward to incident agency.
9. Settle claims, if appropriate, and inform the incident agency of potential or unsettled claims.
10. Ensure all property as defined by the local unit has been documented (leased, purchased, or borrowed). Document the status of all property on the Buying Team spreadsheet.
11. The BUYL should prepare a transition/close out report. The BUYL should obtain input from the entire team, provide status of continuing acquisitions, and identify problem areas (e.g., transportation, personnel, etc.) in the reports.
12. The transition file shall contain a copy of the entire spreadsheet and team member warrants. Include team rosters with addresses, phone numbers and last four digits of credit card numbers, pre-addressed envelopes for each team member, and copy of delegation of authority if warranted.
13. It is recommended that the BUYL participate in the close-out meetings with the incident teams and incident agencies.

14. Record special information needed for particular vendors. Record new sources of supply identified during incident.
15. Discuss Buying Team release arrangements with the administrative staff. Arrange transportation through Dispatch for agreed time of release.
16. Provide all records to the incident agency and brief Incident Agency personnel.
17. BUYL completes a written performance rating for BUYMs.
18. Forward copies of the performance evaluations to the buying team coordinator in the geographic area where the buying team member works.
19. Notify your home unit dispatcher and NICC that you have returned from the incident.

# **EMERGENCY EQUIPMENT RENTAL AGREEMENT - CONTRACTOR CHECKLIST**

Always keep available a copy of your EMERGENCY RENTAL AGREEMENT, YOUR LAST VEHICLE/HEAVY EQUIPMENT INSPECTION, AND THIS CHECKLIST.

### **When called to an Incident, questions to ask!**

1. What is my Resource Order Number or my Request Number? These numbers will be used to track your equipment to the incident, during the incident, and when it is released.
2. Who is calling? - Individual's name and agency. It is important to be able to identify who requested the equipment.
3. Where to report? The incident may have several reporting locations. Be sure to have a specific identifiable location to which to report.
4. Who to report to? Name of individual or position title.
5. Agree upon a starting time. Confirm an ETA to the reporting location. This is important to assure payment begins at an agreed upon time.

### **Upon arrival at location of Incident.**

1. Have Resource Order Number and/or Request Number available.
2. At this time you must have your Emergency Equipment Rental Agreement or a copy available. You must have this document so your equipment can be used and paid according to the agreement.
3. Be sure to have an Emergency Equipment Shift Ticket started at this time. You must have an Emergency Equipment Shift Ticket for all hours of work to receive payment. Each Emergency Equipment Shift Ticket shall have an authorized Government Official's signature.
4. Be sure to have a Heavy Equipment Inspection done at this time and keep your copy. Don't loose this. If your equipment is damaged on the incident you will need this document to verify the condition of your equipment prior to use on the incident.

### **During Incident.**

1. Be sure an Emergency Equipment Shift Ticket is completed at the end of each operation period. A Government Officer and the Contractor or his authorized agent, must sign each shift ticket.
2. Be sure to keep your copies of each shift ticket. Do not lose these. Your payment is based upon the information recorded on these forms.
3. If you receive any government supplies (fuel, oil, equipment parts, etc.) or require government repair services obtain a receipt (OF-304 for fuel, ICS Form 213 or other appropriate invoice for parts and/or service) and keep them; again, don't lose. This is so you may verify charges that will be deducted from your payment.
4. Any repairs completed by an incident mechanic will be charged to you.
5. Shift tickets should reflect actual hours worked regardless if you are hired at a daily rate or hourly rate.

### **Upon release from the Incident.**

1. Be sure to have release inspection performed on your equipment. This is the time to document any damage that may have occurred during the incident.
2. Ensure Emergency Equipment Shift Tickets are complete (A copy of all your time on the incident).
3. Emergency Equipment Use Invoice is completed and posted accurately and signed by a Government Officer and the Contractor or his authorized agent. **THIS IS YOUR PAYMENT DOCUMENT**, be sure it is correct when you leave the incident.

**INSTRUCTIONS:**

1. Self-explanatory.
2. If FS, BLM, BIA, IDL, MSL, etc. just include the agency acronym. If it is a contractor include the Contractor's Business Name.
3. If it is a Contractor they will have an agreement number (see Block 2 of their OF-249).
4. Be specific (i.e., 1992 Ford 1500 gallon Water Tender; 1990 Ford F-150 4x4).
5. License Number is OK and preferable because it is easier to track (A223987 is obviously a Government plate).
6. Circle the appropriate commodity.
7. Include exact number (5.1, 10.0, 1.0, etc.).
8. Include the unit (gallon, quart, pint, etc.).
9. This is the unit price agreed upon when the Fuel Contractor is ordered or the amount agreed to when the agreement was initiated.
10. Amount of Number 7 X Number 9 (top line for the fuel issues, oil & other issues bottom line).
11. Self-explanatory (the majority of those coming in have only date, time is helpful and should be included).
12. Include any information that may be helpful (i.e., saw gas, generator gas).
13. Total the column above (quantity X unit price)
14. Issuing agent...Contractor or contractor's employee.
15. Printed name and title of Number 14.
16. Receiving Agent...the person receiving the fuel.
17. Printed name and title of Number 16.
18. Finance unit will take care of this block.
19. Finance unit will take care of this block.

## FUEL AND OIL ISSUE - CONTRACTOR CHECKLIST - Continued

### DISTRIBUTION:

FINANCE ATTACH TO ISSUING AGENT'S OF-286 (1st Pink copy). This copy will go with the Fuel Contractor's OF-286 (and Addition on Block 27 of the OF-286).

FINANCE ATTACH TO RECEIVING AGENT'S OF-286 (2nd Pink copy). This copy will go with the Contractor's OF-286 who receives the fuel (a Deduction on Block 26 of the OF-286).

EQUIPMENT TIME RECORDER (Blue copy). This is the Equipment Time Recorder's copy and will be distributed either in the Fire File or as a duplicate when necessary.

ISSUING AGENT (Goldenrod copy). This is the Fuel Contractor's copy to be kept by them at the time of fuel/oil issued.

RECEIVING AGENT'S COPY (Green copy). This is given to the contractor who is issued the fuel at the time it is issued.

ORDERING OFFICE FILE COPY (white copy). This copy is to remain in the book and the book is turned over to the Finance Unit (Equipment Time Recorder or Procurement Unit Leader) at the time of demobilization.

**At the end of each day**, the Contractor should have the following copies retained in the book, for each fuel and/or oil issue: 2 pink, 1 blue, and 1 white. The 2 pink and 1 blue will be given to the Finance Unit. The Finance Unit may request the white copy as well. All other copies should have been previously distributed.

## Exhibit 7

### **FUEL AND OIL ISSUE - GOVERNMENT CHECKLIST**

*(See Interagency Incident Business Management Handbook, Chapter 20, for a copy of the OF 304 and instructions)*

#### **Upon Fuel Contractor's arrival at location of Incident**

##### **Fuel Contractor and Government briefing, to include:**

1. **Establish the quantities and types of fuel you have** (i.e., 500 gallons of unleaded, 400 gallons of diesel, 300 gallons of regular, 3 cases of 10W-30 oil, 3 cases of 30W oil, 5 gallons of antifreeze, 1 case of automatic transmission fluid, etc.). This will give you an idea of where you stand supply-wise and where you may need to resupply.
2. **Coordinate with Ground Support on where the fueling site will be.** A location somewhere near the Ground Support Staging (or Parking) area will probably meet the incident needs the best.
3. **Establish a timely schedule for receipt of OF-304s.** It is very important to receive the OF-304s at least daily. This may be unrealistic during the first couple of days but should be occurring as soon as possible after that.
4. **Establish fuel prices.** Fuel prices should have been established before the Fuel Contractor arrives at the incident. If not, establish prices for those commodities being provided.

#### **During Incident**

It is very important to have a method in place for fuel and oil issue administration. This is my recommendation and what I have found to be effective (obtaining a copy of the Contractor's Fuel/Oil Checklist would be helpful for a cross-reference).

Once OF-304s are coming in on a daily basis, distribute them as follows:

1. Put the Issuing Agent copy (1st pink) in a separate envelope or box marked appropriately (i.e., "Bud's Fuel Services" or "Pat's Oil") and keep with the Fuel Contractor's OF-305 envelope.
2. Put the Receiving Agent copy (2nd pink) in their appropriate OF-305 envelopes.

NOTE: If the Government is providing operating supplies (See Block 6 of the OF-294) then the pink copy should be put in with an envelope or box marked "Government Fuel and Oil Issues." All Government (federal, state, and local) should be put in this box and retained with the Fire File.

3. The Equipment Time Recorder copy (blue) will be used for the Fire File or as a duplicate copy when necessary.
4. The Ordering Office copy (white) will be retained in the book unless it is requested by the Finance Unit (this may occur if the copy is needed as a duplicate).

#### **Upon release from the Incident**

1. Fuel and Oil Issues will be reconciled with contractor(s) providing their own operating supplies as a deduction (Block 26) on the OF-286 (Do not rely on Receiving Agent copies to assist you in this reconciliation).
2. Fuel and Oil Issues will be reconciled with the fuel contractor as an addition (Block 27) on the OF-286 (Coordinate with the Fuel Contractor with their issuing Agent copies on this reconciliation).

## INSTRUCTIONS

1. This form is to be completed by the mechanic providing the service, with the original being turned into the Procurement Section in finance and a copy to the Contractor. Any invoices for purchases supplies/parts are to be attached.
2. Incident name and number, self-explanatory.
3. Ownership: Check the appropriate box; if privately owned, include the owner's name.
4. Equipment: Provide a description of the equipment being repaired, such as: " blue 1985 Ford 3/4 Ton 4X4" or "Stihl 056 chainsaw."
  - (a.) Be sure to include the E-number for private equipment; otherwise, we may be working on every vehicle in the county. This number is also very useful in identifying the owner/contractor to determine financial responsibility.
  - (b.) Also include the vehicle license number (preferred) or other identification numbers.
5. Description of Work: This box is used to describe the service provided and should include a list of parts installed. For example, "drove to site of stalled tender, installed rebuilt alternator (provided by owner), new V-belt. Replaced battery and hold-down. Also replaced a bulging radiator hose and 2 gallons antifreeze."
  - (a.) Be sure to include any travel time required to obtain parts or getting to and from the work site.
  - (b.) Include the cost of all parts and supplies that are provided by the Government. DO NOT include cost for items supplied by the Contractor.
6. Mechanic Remarks: Check the appropriate cause, whether in your opinion the damage/breakdown was "normal wear" or damage related to conditions on the incident.

Provide a brief statement of the apparent cause, if any. For example, "Tender was regularly crossing kelly bumps, battery hold-down broke and battery landed upside-down on alternator. Apparently burned out the diodes. "Radiator hose was just old."
7. Obtain signature of the owner or operator and mechanic signs and dates as well.

(d) *Inspection/Acceptance*. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights—

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) *Excusable delays*. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) *Termination for the Government's convenience*. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges that the Contractor can demonstrate to the satisfaction of the Government, using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

## **EXHIBIT 19**

### **BUYING TEAM TRANSITION/CLOSE OUT DOCUMENT OUTLINE**

The purpose of this document is to guide the team leader in preparing a transition document, which will relay to the incoming team procedures and arrangements that are already in place.

#### **A. BRIEFINGS, CONTACTS, GUIDELINES**

1. List any briefings that the buying team has been attending. Include time and location and the role of the buying team in these briefings.
2. Provide a list of incidents that are being supported by the buying team. Include job codes.
3. Provide the name and phone number of the IBA and any other incident contacts (name and telephone numbers) that are beneficial.
4. Provide copies of any documentation provided to the buying team, such as the operating guidelines.
5. Provide names, addresses, and phone numbers of buying team members.

#### **B. LAND/FACILITY USE AGREEMENTS**

1. Provide list of land use agreements and the location of the documents in the buying team filing system.
2. If the buying team is making periodic payments for any of these agreements, include who is documenting receipt and how the payment is being made.

#### **C. SUPPLEMENTAL FOODS, STANDING ORDERS**

1. Provide listing of supplemental foods that are acceptable to the unit and how supplemental foods are being ordered. (If the unit has operating guidelines, this information will be included in that document.) Include the names and telephone numbers of contacts for each vendor.
2. Include documentation on standing orders, how they are being handled and which ones are still standing. (This is most likely newspapers, ice, supplemental food items, etc.)

#### **D. MEDICAL**

1. If the buying team is paying for any medical – comp/claims, provide information on what has been set up and how the payments have been handled.
2. Provide contacts for each camp responsible for the M-Log and coordination with comp/claims.

## **E. SPECIAL PROCEDURES**

1. If the buying team has set up any special procedures for items, i.e. propane, laundry, rental vehicles, saw parts, computers, photo development, leave detailed instructions on what has been set up, who initially set it up, vendor and incident contacts, and how payments have been handled.
2. Leave list of contacts on hard-to-find items. Include any learning experiences you went through to locate this item.

## **F. PENDING ORDERS**

1. What information are you leaving the incoming team regarding items that have been ordered but not delivered? How is that information organized?
2. What about outstanding orders, those that have not been placed yet? What do you need to tell the incoming team so they know what needs to be ordered and any outstanding priorities?

## **G. COSTS**

1. Who are you relaying cost information to daily? How do you transmit this data, by email, telephone, FAX, etc.? Identify what you are capturing as cost information.

*Basically, include anything in this document that will help the incoming team, even items you plan to cover at the briefing between the two teams.*
