The National Wildfire Coordinating Group (NWCG) provides national leadership to enable interoperable wildland fire operations among federal, state, tribal, territorial, and local partners. NWCG operations standards are interagency by design; they are developed with the intent of universal adoption by the member agencies. However, the decision to adopt and utilize them is made independently by the individual member agencies and communicated through their respective directives systems.

Instructors must have the CD-ROM Course Materials and DVD, and will need to review the course for preparation and additional items needed. The Engine Operator addresses the standards, procedures, and techniques to be an engine operator on a wildland or prescribed fire. Field sessions are used throughout the course week, so it is assumed students will drive an engine to the course. Because this course was developed for the BLM organization to standardize “Engine Academies,” the course refers to BLM policy, engines, references, maintenance forms: instructors will need to modify references for the home unit organization.

Interagency Standards for Fire and Fire Aviation Operations (Annual)
NFES 002724 $5.57
This annual document is also known as the “red book.” This document states, references or supplements policy for the Bureau of Land Management, Forest Service, Bureau of Indian Affairs, Fish and Wildlife Service, and National Park Service fire and fire-aviation program management. The standards are designed to ensure safe and efficient wildland fire, fuels, and fire aviation operations. The document is posted on https://www.nifc.gov/.

LCES Decal, PMS 472 (2017)
NFES 002397 $6.32/pg.
100/pg. LCES is an acronym representing the four key operational components of the Standard Fire Fighting Orders: Lookouts, Communications, Escape routes, and Safety zones. LCES decals can serve as a reminder how LCES keeps firefighters safe.

NFES 002687 CD-ROM $2.20
Major sections include: NFDRS Model, FireFamily, Climatology, Computations, Drought, Dead Fuel Moisture, Greenness, Pocket Card, Haines Index, Weather Stations, WIMS, Canadian System, Install Viewers. Documents on the CD include (not a complete list): Aids to Determining Fuel Models, Gaining a Basic Understanding of the NFDRS, Charts for Interpreting Wildland Fire Behavior, Fire Weather, and Atmospheric Conditions Related to Blowup Fires, and Fire Environment Concept.

NFES 000968 $12.74
The annual guide contains the catalog, instructional information, and communication design drawings. This document and other incident communication support information are available at https://www.nifc.gov/.

National Interagency Mobilization Guide (Annual)
NFES 002092 $3.01
5½" x 8½", spiral bound book. This annual National Interagency Coordination Center publication known also as the "Mob Guide" covers national mobilization procedures and policies. Posted on https://www.nifc.gov/.

This guide has been written for practitioners of fire use and air quality managers. Included are a four-photo series of increasingly degraded visibility to demonstrate visibility levels and respective ambient particulate concentrations, photos of different fuel and vegetative classes; maps of the conterminous United States depicting forest and vegetation types, transportation systems, human population density, and Class I visibility areas; photos of operational smoke reduction techniques being applied in the field; photos illustrating the various phases of combustion in the field; and graphics illustrating the multi-dimensional aspects of smoke management meteorology and smoke dispersion.

Note: This publication has been revised in 2018 as *NWCG Smoke Management Guide for Prescribed Fire*, which is available electronically at [https://www.nwcg.gov/publications/420-2](https://www.nwcg.gov/publications/420-2), but is not yet available in hard copy.

NFES 001275  
$8.29

The primary objective of the guide is to provide wildland firefighting agencies a basic information document on water handling equipment. This guide contains equipment components that are (1) commercially available or economically reproducible, (2) interagency in scope or application, and (3) currently in use. Information on foam generating equipment has been placed into a separate section. Agency-developed systems or components portrayed, but not available commercially as a unit, are included to promote standardization among agencies.

NFES 001874  
$3.97

Designed to assist personnel having wildfire protection responsibilities; emphasizes the importance of accurate fire investigative procedures.

NFES 002943  
$5.13

The guide presents wildland fire incident management and operation standards; the guide is the standard NWCG incident management reference guide 8 ½" x 11" bound book.

The NWCG National Fire Equipment System Catalog – Part 2: Publications is developed and maintained by the National Fire Equipment System Subcommittee (NFESS), under the direction of the Equipment and Technology Committee (ETC), an entity of the National Wildfire Coordinating Group (NWCG).

Previous editions: Annually, beginning in 2002.

While they may still contain current or useful information, previous editions are obsolete. The user of this information is responsible for confirming that they have the most up-to-date version. NWCG is the sole source for the publication.

This publication is available electronically at https://www.nwcg.gov/publications/449-2.

Comments, questions, and recommendations shall be submitted to the appropriate agency program manager assigned to the NFESS. View the complete roster at https://www.nwcg.gov/committees/national-fire-equipment-system-subcommittee/roster.

Publications and training materials produced by NWCG are in the public domain. Use of public domain information, including copying, is permitted. Use of NWCG information within another document is permitted if NWCG information is accurately credited to NWCG.
